Practice what we preach

By Jeff Byroads (San Diego State '78),
Chairman, Committee on Risk Management

"A man whose conduct proceeds from good will and an acute sense of propriety"

Recently a mother of an $\Sigma A E$ undergraduate who was involved in a serious alcohol related accident called the Fraternity Office to air a complaint - not about what happened to her son but, rather what had happened to her after the incident. When this very concerned parent was trying to get answers from the active chapter as to what happened to her son, all she got were excuses about it not being the fraternity's fault.

Instead of a caring and thoughtful reaction to the accident, the active chapter members turned a cold shoulder to the family of their brother. The actives would not talk to anyone regarding the accident and displayed an absolute disregard for the feelings of concerned family members. It became apparent to the family that the $\Sigma A E$ s were more concerned about covering their backsides than in acting like True Gentlemen and assisting the family in understanding what really happened and in reaching out to the injured brother in his and his family's time of need.

It's unfortunate that we find ourselves living in a litigious society where it's become a reflex to clam-up and say nothing or blame others for your own mistakes. We all have to judge for ourselves where the fine line between empathy and liability lies. With attention to sound chapter risk management policies, you reduce the chances of finding yourself in the position of having to explain to the family of a brother or guest why they were injured, or worse, killed.

Dealing appropriately with an incident after the fact is also part of risk management. A compassionate response and an effective investigation of an accident can both minimize the financial and emotional cost, as well as be a life learning experience. At some point in your life, lightning will strike, and when it does, you must be prepared to deal with the consequences like a True Gentleman, remembering, "the rights and feelings of others rather than his own."

Editor's note: To address the increasing number of risk management occurrences around the Realm, the Risk Management Column has become a regular feature of *The Record of Sigma Alpha Epsilon*. Case Study: Successful Rush

SAE brothers at Arkansas Alpha-Upsilon firmly believe in the old adage, "plan your work and work your plan." When warm spring weather came to the Fayetteville, Arkansas campus, high in the Ozark Mountains, rush planning began for the "fall rush season." Newly elected EA George Matteson chose three very responsible brothers to coordinate their rush efforts and plans, while individual brothers worked hard to locate prospective rushees. Events were planned and held at a variety of locations, to insure they draw quality rushees from the entire state and neighboring states.

The active chapter worked continually with the area alumni association to get the word out. Rush was the main topic in the alumni association's July issue of the association newsletter. The article stated:

Rush is the main branch of the river, providing the stream of new blood into the Fraternity. Pledging is not the only option for many fine young men entering college today. There are many alternatives for them to choose from, the positive attributes of fraternity life must be sold. There are many ways that alumni can assist in rush activities over the summer (or during the school year for that matter) including: submitting a Rush Recommendation; attending a rush party; or providing a small donation to defray part of the cost of a rush event or materials. To find out just what you can do to assure a successful rush, take a few minutes and contact the rush chairman at the chapter....

Alumnus Joseph S. "Joe" Davidson, (ARAU '74), of Marvell, Arkansas, was one example of the many alumni who participated in the

The proud chapter at Arkansas after another successful rush.

rush effort. Joe had nothing but the fondest memories of his active days in the ΣΑΕ house. Joe is now a successful insurance agent in Marvell, where his daughter is a Senior cheerleader at the local high school. Also in that Senior class Jeremy Scaife was a key athlete and student leader. Jeremy was president of the Student Council, member of the Honor Society and a letterman in football and basketball...in other words just the type of young man ΣΑΕ would be interested in to play a role in preserv-

ing the tradition of quality at Arkansas Alpha-Upsilon. However, there was a problem in that Jeremy knew very little, if anything, about the Greek system in general, or ΣΑΕ in particular. That is where alumnus Joe Davidson came in. He discussed and explained fraternity life with Jeremy. Jeremy took an interest. Thus, Joe contacted brother Bruce Murphy, past president of the alumni society, who put Joe in contact with the chapter rush chairman, Peyton Daniel. Peyton quickly contacted Jeremy and knew that this young man was one rushee ΣΑΕ did not want to pass by. Jeremy's interest grew and he attended the statewide ΣΑΕ rush party in Little Rock.

On the final day of rush, Jeremy Scaife was one of 35 of the admirable young men who pledged Sigma Alpha Epsilon. All welcome Jeremy and the 34 other brothers into the fold and thank brothers like Joe Davidson and Peyton Daniel for making rush work!

Fraternity Office unveils new logos

In a recent issue of *The Record*, the Fraternity Office ran a design contest to update the ΣΑΕ lion and phoenix logos. The following winning designs were submitted by brother Richard Underberg (NYOM '92) an art director with Leisure Concepts in New York city. Richard was honored as his winning designs were unveiled at the 140th ΣΑΕ Anniversary event in New York last spring.

These and other designs, along with all the traditional ΣΑΕ logos will

be available on camera-ready page slicks for use in newsletter, brochures posters, etc..

Brother joins the staff of the Fraternity Office

We are pleased to announce the addition of Christopher J. Mundy (MIGA '96), Michigan State, to the staff of Sigma Alpha Epsilon. Chris comes to us from assisting the Michigan Environmental Council in Lansing. Chris will serve as the Coordinator of Publications and Programs. His responsibilities are to work with the editor of *The Record* and assist in Leadership School and Convention planning. He will also work in coordinating the student loan and scholarship programs. Chris can be reached at the Fraternity Office at extension 235.

University of Iowa Chapter Reclaims Its Past

By Don Souhrada

"But what is done is irrevocable." November 14, 1974

Otis Teeters, son of Iowa Beta founder, Dean Wilber Teeters, wrote this to his brother Bill, shortly after learning the Iowa Beta chapter house had been sold to Tau Kappa Epsilon Fraternity. Since the sale of Iowa Beta's best known residence at 303 North Riverside Drive in Iowa City, Otis Teeters words appeared to be accurate.

Nearly twenty-five years after the sale of the property built by Iowa Beta in 1925, the chapter has reclaimed the glory of "the house on the hill."

A brief history

According to $\Sigma A E$ historian, Dr. Joe Walt, Iowa Beta's problems began during the "great student revolt" of the late sixties and early seventies. "It was a tough time for universities and especially fraternities across the country." Because of the state of the Greek system, the chapter experienced declining membership and financial problems.

"Due to a misunderstanding or disagreement with the Iowa Beta house corporation, the house on North Riverside was sold," said Walt. The undergraduate chapter and virtually all Iowa Beta alumni were unaware of the transaction.

Since the sale of the original chapter house, Iowa Beta has occupied houses on Fairchild and College Streets, "the lodge" on South Dubuque and most recently lived on North Dubuque.

Reclaiming the glory

Over the past several years, Iowa's Tau Kappa Epsilon chapter had been on the brink of closure. During the 1995-1996 school year, a series of events did lead to the demise of the TKE chapter, thus allowing the Iowa Beta house corporation to reacquire the house on 303 North Riverside. The closing took place July 15, 1996.

"The involvement of caring, concerned and knowledgeable alumni from the local area made this purchase possible," said Joe Souhrada, house corporation vice president. "Those involved with the corporation have areas of expertise in law, insurance, finance and property management, as well as fraternity advisement."

"What spurred us on as a group was the enthusiasm we received from the undergraduate chapter. They have consistently placed among the top in grades on campus and have held key campus leadership roles in IFC, the *Daily Iowan* and Student Alumni Ambassadors," Souhrada said.

"Moving to the chapter's original structure has increased the devotion of the chapter brothers," said current Eminent Archon, Sean Denney, (IABE '98). He went on to say, "The brothers have taken a renewed interest in the history of their chapter house. They've seen the " $\Sigma A E$ " above the door that was covered over by a TKE sign all these years and realize that this has always been our house."

"There are many advantages to living here," Denney said. "We had our former house filled, but now we have space to offer actives and pledges a place to live—that can only help us during rush."

Despite his brother's words of twenty-five years past, Bill Teeters maintained hope that the chapter could reacquire the house. "I never thought that it was irrevocable. I am very pleased that this has come full circle. This is a tremendous thing to achieve," he said.

"There is a lesson to be learned in all of this," admonished Dr. Walt, "now that undergraduates have representation on house corporation boards, this sort of thing is not likely to happen again. It is very important that every house corporation meeting reflect the views of the alumni and undergraduate bodies. It is important that each party take part in the decision making and take responsibility for those decisions."

Iowa Beta's story parallels the story of the phoenix, demonstrating that it too is "ever living, never dying." With the reacquisition of its original structure, $\Sigma A E$ has risen from the ashes and reconfirmed its strength on the University of Iowa campus.

"As Iowa Beta alumni, we need to make sure that $\Sigma A E$ never loses its chapter house again," said Stephen Cary (IABE '92), house corporation secretary. "This is an opportune time for each alumnus to reacquire himself with the chapter and take an active role in its exciting future."

THE ANNUAL REPORT OF THE SIGMA ALPHA EPSILON FOUNDATION

One of the top architectural attractions in Chicago is the Tribune Tower, which is where, among other things, the *Chicago Tribune* is created each day and WGN-TV is broadcast. But while the building itself is striking, its facade is even more interesting. There are numerous pieces of historical structures embedded in the Tribune building's foundation, including pieces from the Taj Mahal, the Egyptian pyramids, the Alamo and the Great Wall of China.

The pieces that make up the foundation of Sigma Alpha Epsilon are just as diverse and are even more necessary. For, while the fragments in the Tribune Tower are decorative, SAE's pieces are vital to the fraternity's success.

This edition of the Annual Report takes an inside look at those pieces. Many of the duties that SAE officers, volunteers and staff carry out can sometimes get overlooked. But the role of the province archon, chapter adviser, Supreme Council member, fraternity staff member, alumni volunteer and foundation supporter help keep SAE strong.

How does an Education and Leadership Consultant best help a chapter's development? Bryan Ott, manager of extension, describes how a Consultant's responsibilities to a chapter may be more significant than undergraduates realize. In addition, other staff members describe how the Fraternity Office can actually help a chapter run more smoothly.

A chapter advisor should be more than someone's picture on a composite. Lee Miller (Mt. Union '62) discusses the breadth of duties he takes on as a chapter adviser and he, as any good advisor should, advises chapters on how they can best take advantage of an alumnus's experience.

The alumni association is the obvious place for a brother to stay involved after he graduates. But how many have

the chance to join one or how many really know what an alumni association does? Chuck Hodge (Toledo '64) gives some good advice on how an alumni association can broaden its purpose and best serve alumni—and perhaps even undergraduates—to make sure they can keep in touch with their fraternity experience.

The message from the ESA is an Annual Report tradition, but the role of the Supreme Council member is much more than attending chapter installations or Founders Day events. Who better than Ben Allen (Miami, Ohio '60) to lend insight on the role of the Supreme Council.

Another integral piece is the province archon, who can provide everything from programming ideas to interpretation of chapter responsibilities. Many times an archon is a good person for counsel because they are far enough from the local chapter to give an outsider's perspective, but they also are close enough to keep regular tabs on a chapter's activities. Fritz Lauture (SUNY-Binghamton '86) writes about the role of the archon.

And, of course, there wouldn't be a foundation without the Foundation, for which the Annual Report is a showcase. The financial support that both alumni and undergraduates give the SAE Foundation is vital for the fraternity's success. As is evident by the length and breadth of this report the brothers who donate to the SAE Foundation makeup the massive bedrock upon which our fraternity is supported.

Some of these pieces may be more notable than others: One chapter may know its archon better than its consultant, and an alumnus may be active in an alumni association but doesn't know how he can support the Foundation. But each piece is vital to the fraternity's and foundation's success. Our hope is that you will learn from this Annual Report just how true that is.

MESSAGE FROM THE ESA BEN ALLEN

Sigma Alpha Epsilon has always been a leader in the fraternity world and it has always been a major priority of every Supreme Council to maintain that position of leadership and influence.

Over the past few years, there have been a number of major challenges and opportunities that could have had an adverse effect on $\Sigma A E$'s leadership position. Accordingly, they became major issues for the fraternity. These challenges and opportunities, to which a significant amount of time, talent and energy have been devoted, were in the areas of finance, fraternity growth, communications, risk management and fund-raising.

With the assistance of an uncounted number of $\Sigma A E$ alumni and undergraduate volunteers—to whom $\Sigma A E$ is indeed indebted—the challenges and opportunities that confronted $\Sigma A E$ have been met, resolved and used for the fraternity's benefit. As a result of these combined efforts, we've put $\Sigma A E$'s house in order and in an excellent state of preparedness to respond to today's rapidly changing technologies and to the challenges of the 21st century.

When brother Ron Doleac was Eminent Supreme Archon, the Supreme Council cleared the land by identifying the areas of greatest opportunity facing the fraternity and began addressing and resolving the underlying causes.

The current Council then began laying our firm foundation by putting into place the structure, the policies and the controls on which our next Supreme Council can begin building for the future.

I'm quite pleased to report that $\Sigma A E$'s financial house is in order. For the first time in the past six years, the fraternity this past year operated in the black. Many factors and a lot of good $\Sigma A E$ brothers have contributed to the improvement of the fraternity's financial position. To cite just a few of the contributing factors: —Thanks to the cooperation of the Board of Trustees of the Fraternity Endowment Fund (FEF) and a sound FEF investment program that has generated record income, the large debt owed by the fraternity to the FEF has been paid in full.

— Chapter debts have been significantly reduced. For this, we can thank the Fraternity Office and the Chapter Finances Committee for their efforts to reduce these receivables.

— Our undergraduate brothers cooperated by approving increases in dues, pledging fees and initiation fees at the last Fraternity Convention.

— The operation of the Fraternity Office has been streamlined and consolidated, thereby reducing overall operating expenses.

Also, an ad hoc committee has just been put into place which will seek out and cultivate corporate sponsorships of the Leadership School and other educational activities. This could go a long way in reducing the fraternity's costs, improving the fraternity's financial position and freeing up funds to expand the fraternity's existing programs and fund new programs.

Between 1989 and 1993, we saw no growth in the number of $\Sigma A E$ chapters in the realm. Growth—planned growth—is essential to the continued existence of $\Sigma A E$. Thanks to an aggressive policy of extension and outstanding efforts by the Extension Advisory Committee and the Fraternity Office, we've added seven sound chapters in the past three years. The installation of these chapters brings our total of active chapters to 208, the most in the long history of the fraternity.

As I noted in last year's state of the fraternity report, our goal is to have 250 chapters by the year 2006, the 150th anniversary of $\Sigma A E$. Eminent Supreme Recorder Dick Lies recently pointed out that, of the 853 colleges and universities in the U.S. and Canada at which fraternities exist, $\Sigma A E$ is represented at only 230 of these institutions. We have room to grow.

Of course, another area of planned growth is through initiations at our existing chapters. As reported last year, we've emphasized the need for an increase in the numbers pledged and initiated. Our efforts have been more than successful. This past year, our pledge and initiation numbers were up and, of the five largest social fraternities, $\Sigma A E$ was the only fraternity to increase its undergraduate membership.

To further aid our efforts to increase membership, we've just commissioned an ad hoc committee on rush to support our chapters in their rush efforts, thereby increasing our pledge numbers.

Recognizing that it's imperative that we keep our alumni and undergraduate brothers informed, we've put a priority on having state-of-the-art communications within the fraternity. Toward this end, a blue-ribbon communications technology committee has just been formed and we expect great enhancements and improvements in this area.

Our Risk Management Committee and the Fraternity Office staff have been exceptionally busy this past year and, while it's still too early to close the books for the year, we expect our insurance claims to have declined significantly. We must obviously thank our undergraduate brothers for heeding our risk management messages.

Contributions to the $\Sigma A E$ Foundation were up this past year, but we know that there are numerous resources that have yet to be tapped. In an effort to maximize this potential, we have expanded the Foundation staff and hope to report even better results in years to come.

In addition, in the past nine months the $\Sigma A E$ Foundation has granted \$500,000 in loans to $\Sigma A E$ brothers to help them further their education. This is an excellent example of fraternity programs fulfilled at the highest level.

In recent years, Northwestern University has been far from cooperative and, as a result, for only the second time in 61 years, the $\Sigma A E$ Leadership School was not held at Northwestern. The 61st annual Leadership School was held at the University of Illinois-Chicago and, even with the snafus associated with a new venue, there's no question that the school was an unqualified success. Thanks to Leadership Development Director Ken Tracey and a very talented planning committee and faculty, more than 600 undergraduate brothers attended and enjoyed this year's school. The curriculum and the educational opportunities continue to improve yearly.

While we have had to focus on a myriad of areas and programs this past year, we've not shortchanged other ongoing and important areas of concentration. To name but a few, we continue to support increased aid to our chapters which are experiencing difficulties, the use of the $\Sigma A E$ Ritual, improved scholarship, the overall quality and enjoyment of undergraduate life, quality membership education, improved alumni services and men's health education.

In summary, Sigma Alpha Epsilon is as sound as it has been in many years and we continue to strive for improvements in all areas of the fraternity in order to maintain our #1 position and leadership role in the fraternity world. We thank our volunteer brothers everywhere for their support, their cooperation in difficult times and their active involvement in our efforts to keep $\Sigma A E$ on top.

DIRECTOR OF DEVELOPMENT CHARLES LARSON

At the Fraternity's 105th Anniversary Convention in 1961, Eminent Supreme Archon Howard P. Falls announced that he had reached his goal of surpassing 100 total Founder Members of the Levere Memorial Foundation. A great accomplishment for those times! In 1985 the name was changed to the Sigma Alpha Epsilon Foundation, and as we begin a new fiscal year, 3,752 "Brother Heroes" can now claim Founder Member

status. The results from this past year are exciting: 264 alumni became Founder Members and 121 brothers reached Society levels beyond Founder. Brother Falls would have been proud.

Our objective is to continually increase the number of alumni who make a commitment to become a Founder Member and support our mission: "Alumni supporting scholastic achievement, leadership training, and personal development since 1927."

The programs of the Foundation are critically important to the success of the Fraternity. Your gift makes a difference in the lives of our young brothers who benefit from your generosity.

1856 SOCIETY

At their annual meeting last fall, the trustees of the Foundation approved the creation of two new giving levels—the **1856 Society** (see

page 17) and the **Anniversary Club**—that recognize brothers who support the Foundation on an **annual basis**. The 1856 Society recognizes gifts totaling \$250 or more and the Anniversary Club recognizes donors who contribute \$1 for each year since the Fraternity's founding. These two new clubs were well received in their first year as the **1856 Society** was supported by 594 donors (average gift of \$405) and the Anniversary Club by 639 donors (average gift of \$163). We invite you to participate in this new Foundation giving program.

Estate Planning Service

Part of the mission of Sigma Alpha Epsilon is "to promote the highest standards of . . . service for our members. . ." With this in mind, the Foundation has entered into a joint venture with Wealth Concepts, Inc., of Atlanta, to aid alumni brothers in their estate planning needs. As investment managers, Wealth Concepts has developed a very positive national reputation for comprehensive charitable planning that results in:

- *More money for you
- *More money for your heirs
- *Money that goes to your favorite charities instead of going toward taxes.

The question you need to ask yourself is: **Do you or anyone you know have assets they would sell if they did not have to pay capital gains tax or estate tax?**

Interested? Please contact the Foundation for further information and if you like, we'll arrange for a no obligation / no charge, confidential conversation with Wealth Concepts. The result could be a win-win opportunity for you, your family, and the organizations that mean so much to you. Thanks again for your continuing support of Sigma Alpha Epsilon.

DIRECTOR OF FRATERNITY & FOUNDATION SERVICES STEVEN D. SIKORSKI

One of these comments may sound familiar: "We sure would like to build a new house" or "Why can't we remodel our beat-up existing house?"

As our great fraternity approaches its 141st birthday, many of our chapter houses are in need of major remodeling or complete replacement. Once a decision is made to embark on a major building project, a group of dedicated brothers—usually local alumni from the chapter—face

the daunting question, how will this project be financed? Fortunately, help is available to fund a portion of the construction through tax deductible donations to the Sigma Alpha Epsilon Foundation. This process involves establishing a Chapter Allocation Fund.

The Sigma Alpha Epsilon Foundation is classified as a Section 501(c)(3) educational foundation by the Internal Revenue Service and, accordingly, all contributions to the Foundation must be used for educational purposes in order for them to be tax deductible by the donor. This is in contrast to the Sigma Alpha Epsilon Fraternity, classified as a Section 501(c)(7) association by the IRS for which donations are not tax deductible.

The establishment of a Chapter Allocation Fund is quite simple. First, architectural drawings for the fraternity house building or remodeling are submitted to the ΣΑΕ Foundation for review along with the architects'

breakdown of the construction cost for the total project. Secondly, that portion, determined by square footage, of some of the general costs (e.g. roof, architect's fees) is calculated. This ratio of total costs to educational related costs establishes the amount of the Chapter Allocation Fund. This fund enables donors to give tax deductible gifts to the Foundation that are remitted back to the group for construction or remodeling of the facility. The application must be accompanied by a letter from the college showing how the fraternity's library and study rooms will benefit the entire college.

For example, if the architects' estimate of total construction costs for a new fraternity house is \$1.5 million (not unusual these days) and 20 percent of the costs included in the estimate is specifically dedicated to education such as libraries, study rooms, personal computers, etc., then \$300,000 can be designated as a Chapter Allocation Fund for the project. All contributions up to \$300,000 sent to the $\Sigma A E$ Foundation restricted for this specific Chapter Allocation Fund are remitted back to the House Corporation undertaking the project and are fully tax deductible by the donor.

Other examples of educational construction costs include costs for libraries, including carpeting, lighting and furniture; personal computers and wiring for hook-ups to campus mainframe computers; study rooms (but only if they are physically separated from sleeping rooms with a permanent wall); and the proportionate percentage of the external structure (such as the roof and outside walls) that contain the educational facilities.

Several $\Sigma A E$ chapters, including Iowa Gamma at Iowa State University, Connecticut Omega at Yale University, Arkansas Alpha Upsilon at the University of Arkansas and Tennessee Sigma at the University of Memphis, currently have Chapter Allocation Funds. This is a great way to entice donations for your building project. $\Sigma A E$ s have a 140-year history of rising to the occasion. It is very rewarding to make sure all $\Sigma A E$ undergraduate brothers have facilities conducive to study. If you would like to discuss establishing a Chapter Allocation Fund, please contact Steve Sikorski at the $\Sigma A E$ Foundation Office. He can be reached at P.O. Box 1856, Evanston, IL 60204 or 1-800-233-1856, ext. 234.

DIRECTOR OF FRATERNITY & FOUNDATION SYSTEMS JEFFREY S. ARNOLD

Though the fraternity and foundation systems team may not be as visible as the chapter operations team at the Fraternity Office, our responsibilities help chapters run more efficiently and effectively.

Most notably, we oversee the management of Sigma Alpha Epsilon's two main events: Leadership School and the biennial Convention. We answer the questions about fees and schedules, handle the logistics (Where will

the brothers stay? Where's the final banquet? How do we transport them around?) and advise brothers on how to make the most of these memorable experiences.

In addition to helping organize these notable happenings, we also work behind the scenes to affect better communication among $\Sigma A E$

staff, volunteers and undergraduates. We've recently added a state-of-the-art mailing system to the Fraternity Office which will enable us to send out more time and cost-effective mailings. Those brothers who have called us in the last couple years know that we have installed a voice mail system and we are continuing to see how we can improve that aspect of our communication. And, of course, our office would be remiss if it wasn't continuing to look at how we can use computers and the Internet to best serve our undergraduates and alumni.

An addition to our team that some may not know about has been a part-time archivist. That has been helpful to organize and best display documents, memorabilia and photographs from our fraternity's rich history.

Making sure the Fraternity and Foundation Office runs efficiently may not appear to have a directly impact on the life of undergraduates, but, in fact, how well undergraduates run their chapters direct affects the Fraternity Office. The fraternity and foundation systems team plays an important role in making sure that the administration and management of our chapters can be a benefit, not a barrier, to the $\Sigma A E$ experience.

CHAPTER OPERATIONS

Sleeping on old, smelly couches. Telling a large group of young men they need to change something that they don't really want to change. Jumping in your car and driving for hours on a regular basis. Going for up to three months without seeing family and friends.

Sound rough? Well, this is real life for six Education and Leadership Consultants who spend the school year traveling for the Fraternity Office.

Since 1994 the E&L's have been "field-based." For a consultant, this means that he has been assigned a specific region of the country that he calls his own. Each region has about 40 chapters and colonies. The consultants visit each chapter and colony in his region for an average of three days, at least once per school year.

An E&L Consultant has a wide variety of tasks that fit into his job description. First and foremost, the consultant is a liaison between the Fraternity Office, the provinces, the chapters, the alumni and the house corporations. He is a trained "expert" on fraternities who meets with the officers of the chapter, university officials and local alumni. At the meetings, he tries to get a good sense of what is going on with the individual office and offers suggestions for improvement. In the three days that the consultant is in town, he tries to hang out with the group as much as he can in order to get a flavor of the group's personality. At the end of the visit, a letter is sent to the Eminent Archon which describes some of the areas in which the chapter is doing well and offers suggestions for things with which the chapter needs help.

Needless to say, consultants are often called upon to use their knowledge in order to facilitate discussions, lectures, sessions at leadership schools and conferences and sometimes just to address a small group of people.

Where do they get this knowledge? Each summer, after an application and interview process that begins the previous November, the new consultants arrive in Evanston in early June. They then begin an extensive training program that lasts until just after Leadership School in August. The program utilizes the Fraternity Office staff and also calls upon alumni from around the country to teach the consultants about major fraternity

The Chapter Operations team.

issues such as rush, risk management, finances and the ritual. Leadership School then wraps up the training as a venue for the consultants to practice their newly acquired skills. Finally, after eight months, the consultants hit the road.

How do you prepare for your next consultant visit? First of all, stay calm. There is a common misconception that E&L Consultants are nothing but "Fraternity Police." Nothing could be further from the truth. The consultants are there to help. There is no reason to hide anything, practice your stories or instruct brothers not to show up for a couple of days. The consultants are all recent college graduates, and all of them know what really goes on in college. They aren't there to "bust" chapters for any little thing that they may be doing wrong, nor are they there to turn their heads to ignore problems. They are there to help in any way possible and that is it.

So the next time the Eminent Archon announces "The E&L Consultant is coming next week," don't sweat it. Utilize the consultant as much as you possibly can. Ask him for help on any topic (except maybe chemistry or Elizabethan literature). Make sure that all your questions are answered before he drives away. Because that's why he's there.

CHAPTER ADVISOR LEE MILLER

The Role of a Chapter Advisor

We all enjoy progress, growth and the sense of accomplishment. Washing a dirty car might be on the list of feel-good activities, but there is nothing more rewarding than the highs that come from our personal relationships with others. Input from a variety of volunteer advisors and teachers indicates that the pleasure that comes from helping others accomplish a mission or experience positive growth is second only to family and our personal well-being. It follows that the chapter advisor's experience can be filled with highs and loaded with recognition and personal rewards.

On the other hand, the textbook definition of a chapter advisor would include some or all of the following responsibilities:

- ◆ Take the necessary action to reduce the chapter's risk management issues to a bare minimum.
- ◆ Eliminate physical and psychological hazing.
- ◆ Encourage responsible undergraduate leadership, providing guidance and direction when appropriate.
- ◆ Promote an atmosphere of respect for self, for others and for their personal property.
- ◆ Encourage philanthropy programs that demonstrate the rewards of

giving back to the community from which we take so much.

- ◆ Take appropriate action to ensure the chapter is financially stable.
- ◆ Foster an environment in which our ritual is followed and positive traditions maintained.
- ◆ Recognize and promote academic excellence.
- ◆ Provide positive communications between the active chapter and the House Corporation.
- ◆ Make sure the chapter is in good standing with their financial and reporting responsibilities to the Fraternity Office.
- ◆ Make chapter members aware of all national programs.
- ◆ That's the abridged edition, but it might best be summated in three words: The True Gentleman. Live the words and you (both the advisor(s) and the chapter) have hit a home run.

But who said there is only one chapter advisor per chapter? One person should ultimately be responsible, but it's best to share the responsibilities. Rapid turnover of the undergraduate membership points directly to the chapter advisor(s) as the principal source of continuity. It follows that multiple advisors can only improve long-term continuity and reduce burn out.

Now, let's try to put the role of chapter advisor in perspective. The insurance world and society in general have put the Greek system on

trial. If we don't stop hazing and control our other risk management issues, the insurance industry will put the Greek system out of business. Sound like an exaggeration? In 1994 our national liability coverage was canceled by the previous carrier, and no insurance company responded to our request to bid on liability coverage. We ultimately secured coverage at higher rates and a higher deductible, but only after our dedicated alumni and staff worked to seek out and sell a carrier on providing coverage.

We have changed carriers each year since 1994 with similar struggles. We're now working to build a \$1 million insurance reserve, in anticipation of a similar deductible! Where will it end? Only with the elimination of hazing and control of our other risk management issues. That can only happen when we have responsible, active, trained chapter advisors in every chapter.

Sorority and fraternity statistics clearly show that the presence of a chapter advisor is directly tied to the quality of a chapter. So no matter how you slice it, the role of counselor, teacher, mentor, role model or just plain advisor is packed with opportunities to make a difference. If you enjoy a challenge, like to see progress, appreciate recognition and, most of all, experience a personal high by helping others, call 1-800-233-1856, ext. 224 and ask for Shad Kunkle, coordinator of alumni services, and volunteer your services.

ALUMNI ASSOCIATIONS CHUCK HODGE

How to run a Successful Alumni Association

Forming the big picture of an alumni association can be fairly easy. A group of ΣA Es live in an area and want to keep the bonds of brotherhood in tact by meeting fairly regularly. Sounds fairly easy, right? But the next step—planning, organizing, taking care of the little things—can bog down an effort, particularly when you're starting an alumni association.

We wanted to help alumni associations with that next step so we went to one of the top groups in the country: the Toledo Alumni Association. Chuck Hodge is the president of that association and has some simple guidelines that makes his association a model one.

Keeping your association simple and stable are the keys. The two go hand in hand: Keep meeting times and places consistent from month to month and year to year. The Toledo Alumni Association holds four major events a year including Founders' Day, a golf outing/steak roast, Homecoming or some other chapter event, and a holiday party, and it makes every effort to hold them at the same place and time each year.

In addition to these major events, the association holds monthly lun-

cheons with a keynote speaker (preferably a notable brother or Supreme Council member). For all events and luncheons, it's important to notify brothers 30 days in advance with a postcard or letter. The Toledo A.A. takes advantage of the two free mailing lists provided by the Fraternity Office every year (contact Frances Gillan at the Fraternity Office for more information).

It's especially important to keep brothers informed who can't make it to all the events. The association also has a regular newsletter that goes out to promote the chapter and alumni outings and to give brothers a chance to network. To support all these mailings, the association charges annual dues.

It maybe should go without saying, but the alumni association is not an individual entity. It receives energy from a close relationship with a local chapter and, in turn, the chapter is able to take advantage of the experience that alumni have, not only in chapter affairs, but also in other areas like career development. One thing that an alumni association can do with a local chapter is develop a philanthropy and stick with it so it becomes a regular event like Founders Day or Homecoming.

In the midst of all these specific tips on how to build a solid alumni association, it is important not to forget that, more importantly, a solid association is really about the vitality of brotherhood. That bond is the only thing that can keep an alumni association going strong.

WHERE THERE'S A WILL, THERE'S A WAY

The simple fact that everyone who owns property should have a will. Statistics show, however, that more than half of all adults in the United States die without having a written will. Making a will is one of the most important decisions of your life. Consider it carefully.

Sigma Alpha Epsilon has no wiser advice than this: make a will. Keep it up to date. If you do not have a will, we urge you to consult your attorney at the earliest possible time.

If you are considering making or changing your will, we will be happy to send you the 10-page brochure "Your Will: A Pocket Guide." This brochure covers such topics as terms and provisions, creating trusts and estate planning. To receive a copy, please write to Charles W. Larson, Director of Development, Sigma Alpha Epsilon Foundation, P.O. Box 1856, Evanston, IL 60204.

UNITED WAY?

Yet another avenue to give to the Sigma Alpha Epsilon Foundation has opened up. Many local United Ways now enable donors to give to non-profit organizations that are not directly supported by the United Way. Brothers should first check if their local United Way is supporting this service. If it is, the process of giving is easy. When filling out the designated charity worksheet, just check the "Other" box and write in the Sigma Alpha Epsilon Foundation. The United Way will make sure your donation goes to the SAE Foundation (less a 0.75 percent administrative cost). This United Way service is a new one, having only been developed within the last year, but it gives brothers a great way to support the Foundation, particularly if they work for a business that participates in a United Way fund drive. This makes giving even easier in that you can donate via a payroll deduction. Contact your local United Way or the Foundation office for more details.

FLORIDA STATE: Dr. Charles Fana Jr. recently was awarded a D.M.D. degree from the University of Louisville School of Dentistry in Louisville, Ky. He began a one-year general practice residency at University Medical Center in Jacksonville, Fla.

IOWA: Dr. John S. McDonald ('60) is a recipient of the prestigious Cray Leadership Award for Breakthrough Computational Science for his work to revolutionize the field of medical training by combining virtual reality technology with surgical techniques. Utilizing computer technology, McDonald and his research partner developed a system to help physicians more effectively learn how to administer epidural analgesia. He received the honor at the Smithsonian Institute in June.

LOUISIANA STATE: Brig. Gen. Charles Campbell ('70) recently took part in a joint services exercise which highlighted troops from the Army and Air Force. Campbell was just made a general last March, and he is stationed at Fort Hood, Texas. His chapter brother William Borden ('70) was also recently promoted to brigadier general in the Marine Corps. Borden is stationed in Washington, D.C.

MIAMI, FLA.: Britt Prentice ('88) recently released a compact disc entitled "Unchained Soul," an eclectic mix of rock, R&B and hip-hop songs. He also created his own record label and named it in honor of his ΣΑΕ experience: Phoenix Records. For information or to order a CD, contact Britt at Phoenix Records, 4938 Hampden Ln., Ste. 210, Bethesda, MD 20814, (800) 494-0659.

SUPPORT THE RECORD!

WHETHER YOU HAVE BEEN AN ΣΑΕ FOR FOUR DAYS OR FOUR DECADES, YOU CAN ALWAYS RELY ON *THE RECORD* TO KEEP YOU UP TO DATE ON THE LATEST FRATERNITY NEWS. IN ISSUE AFTER ISSUE, *THE RECORD* LETS YOU KNOW WHAT PROMINENT ALUMNI FROM YOUR CHAPTER AND OTHERS ARE DOING. IT GIVES TOPI- CAL NEWS ON CHAPTERS COLLE- GIATE THROUGHOUT THE REALM. MOST IMPORTANTLY, IT KEEPS YOU IN TOUCH WITH SOMETHING THAT HAS MADE A PROFOUND IMPACT ON YOUR LIFE.

THE RECENT RISE IN BOTH PAPER COST AND POSTAL COSTS FOR NON- PROFITS IS MAKING *THE RECORD* MUCH MORE EXPENSIVE TO PUBLISH. SOME FRATERNITIES CHARGE THEIR MEMBERS A YEARLY FEE TO RECEIVE THEIR MAGAZINE. WE ARE ASKING FOR A VOLUNTARY DONATION TO SUPPORT THE PRODUCTION OF *THE RECORD*.

A CHECK PAYABLE TO THE "ΣΑΕ FOUNDATION" WOULD GO A LONG WAY TO DEFRAY COSTS.

IN ADDITION, THE DONATION IS TAX-DEDUCTIBLE AND GOES TOWARD YOUR GIVING RECORD WITH THE FRATERNITY.

PLEASE MAIL YOUR DONATION TO:

CHAPTER
NEWS BRIEFS

CALIFORNIA STATE-LOS ANGELES: Cal Mu came through in 1996. The chapter had an outstanding year in IFC sports, capturing the first-place trophy, and it had a successful rush for the spring class.

ALABAMA: The brothers of Mother Mu topped the all-men's and all-fraternity grade point average this spring with a 2.55 chapter average. This is the sixth consecutive semester the chapter has beaten the all-men's and all-fraternity GPA.

EASTERN KENTUCKY: The pledges of Kentucky Delta made their annual trip to Lucy Pattie's grave in Frankfort, Ky, to hear the story about the fraternity's only female member.

LOUISIANA TECH: Two members of Louisiana Rho used their experience as chapter officers to help get them elected as Student Government Association officers. Jake Witte, who has been the chapter's Eminent Deputy Archon and pledge educator, was elected S.G.A. president, and Neil Denman, who has been the chapter's Eminent Treasurer and is now EDA, was elected S.G.A. treasurer.

MISSOURI: Trick or treaters will have a chance to go through Missouri Alpha's haunted house, which has been an annual philanthropy for the

CREIGHTON: hosted its second annual alumni golf tournament last spring. Forty undergraduates and alumni played in the event, which was attended by chapter alumnus and Eminent Supreme Chronicler Tom Bower. Mike Bruggeman ('72), Terri Grenan ('71), Jeff McGuire ('80) and active Matt Shalhoob ('98) were tournament winners. The chapter has also formed a house committee that will oversee the development of Nebraska Iota 2000, an effort to build a new house.

PURDUE: Chance Hobson made his brothers and country proud when he carried the Olympic Torch for one kilometer through St. Louis, Mo, last Memorial Day. Hundreds of people from surrounding communities lined the streets with flags in hand and chanting "Go Chance" and U-S-A." Hobson spent the summer working at the Olympic Village in Atlanta, coordinating athletes' housing.

chapter. The benefit supports the Visiting Nurses Association and is considered the largest philanthropy on campus.

TULANE: The chapter will celebrate its 100th anniversary on the weekend of March 14, 1997 at the Fairmont Hotel in New Orleans. The celebration will be held in combination with the Province Theta Leadership School. For more information about the chapter anniversary contact EA Mark Ziskind at (504) 897-1119. To inquire about hotel accommodations, contact Lacey Glorioso at the Fairmont at (504) 529-4820.

VALDOSTA STATE: Georgia Sigma had an eventful end of the school year last spring: The chapter held Valdosta State's largest blood drive ever; it held its third annual Paul Burette soccer tournament with proceeds going to a scholarship fund; Jason Ellis was elected IFC president; and the chapter placed second in Greek Week activities.

TENNESSEE-MARTIN: The brothers of Tennessee Tau participated in the first East Weakley County Relay for Life for the American Cancer Society. The chapter helped in the planning and lighting of luminary bags honoring cancer survivors and those who lost their lives to the dreaded disease. The brothers enjoyed the experience and encourage every chapter to seek out other Relays for Life in their areas.

Leadership School comes to downtown Chicago!

By R.D. Symms

Delegates of the 61st Leadership School marked their places in $\Sigma A E$ history at the University of Illinois at Chicago on August 4-7. They graduated from the first school to take place away from the campus of Northwestern University in Evanston, since 1947, and had a great time doing so.

The Windy City pulled its usual weather coup for Leadership School when it halted the pleasant breeze that's been blowing off the lake all summer long. She proceeded to jack the temperature up about 20 degrees and made the air thick and muggy. This made everyone appreciate the air-conditioned comfort provided by UIC. The few unfortunate people who had to venture out in the midday heat

quickly discovered how it felt to be a juiced orange.

UIC is an urban campus located immediately west of downtown Chicago at the massive intersection of the Kennedy (90/94) and Eisenhower (290) expressways. The Chicago Skyline, highlighted by the Sears Tower, blocked our view to Lake Michigan. The wares of downtown were a short cab or El-train ride away.

Other attractions of the nightlife variety were even easier to access by walking over the Eisenhower Expressway to Greektown. Restaurants and taverns in this Chicago neighborhood saw an influx of business during Leadership School.

UIC itself brought the entire Leadership School together by housing, feeding and educating us in the same facility. In past years at Northwest-

ern, we've had to utilize dormitories on different sides of the campus and classrooms peppered in several buildings. UIC and Northwestern are polar opposites when it comes to their compositions and each has their advantages and disadvantages. The 61st Leadership School delegation might have missed out on the prestige of Northwestern University and the banks of Lake Michigan, but they were the first in 60 years to enjoy the charm of one of our country's greatest cities.

There are so many things to do in Chicago that it's hard to make a dent if you live here for a year. But one of the most popular occasions that never gets old is a visit to The Friendly Confines of Wrigley Field. Attending a Cubs game with over 600 fraternity brothers is the height of

**Leadership School Hall of Fame Inductees:
Kevin McClatchy (CAET '85) and Dr. Joe Walt (TNKA '47)**

surreality. When you look down the different crowded sections and see nothing but a sea of ΣΑ E, about all you can tell yourself is, "This is so cool." The Cubs beat the Mets by the way.

Unfortunately, Minerva's Highway Run started at 7:30 a.m. the next morning. This was a logistical boo-boo that couldn't be avoided. Needless to say, the turnout wasn't what we'd hoped, but the results were impressive. This event benefits Natural Ties, a non-profit organization whose mission is to make a difference in a handicapped person's life. (Natural Ties' creator, Pat Hughes (KSAL '91) wants to introduce these people to the world so they can take part in a normal life that most of us probably take for granted. The 61st Leadership School raised more than \$2,100 for Natural Ties.

The strongest heartstring that we all still have to Evanston is the Levere Memorial Temple. On Wednesday, the 7th of August, the last day of the School, everyone was transported from UIC to the Levere Memorial Temple in school buses. As I mentioned earlier, the weather wasn't conducive to riding a school bus and eating barbecue in a shirt and tie. Not the most comfortable visit to the Levere Memorial Temple, but hopefully a memorable one.

Following the Model Initiation of the Honor Initiates, the Leadership School concluded with a final banquet at the Omni Orrington in Evanston. The presentation of the John O. Moseley Zeal Award is typically the highlight of the evening, and it was nice to see that hasn't changed. Congratulations to the men of Virginia Zeta at Virginia Tech for being dubbed the greatest chapter in the realm last year. Winning the Zeal Award isn't the toughest feat in the ΣΑ E fraternal world. Living up to the reputation of being the best is where the challenge lies. A man's work is never done, but it's nice to see the rewards for the hard work.

Other rewards were given to this year's Leadership School Hall of Fame inductees: Dr. Joseph K. Walt (TNKA '47) and Kevin McClatchy (CAET '85). To qualify for the Leadership School Hall of Fame, a brother must only have attended a Leadership School. Typically, as was the case with Brother McClatchy, inductees are men who have achieved great success outside the boundaries of ΣΑ E. McClatchy is currently the owner of the Pittsburgh Pirates. Brother Walt has not only had a successful career as a professor and historian at Simpson College, but he is also the historian of Sigma Alpha Epsilon and the most knowledgeable man in the realm regarding the origin of this fraternity.

Dr. Walt also told his ΣΑ E Story which continues to grow at each Leadership School. Other general session speakers were Distinguished Faculty Member and Past ESA David M. Lance (OHEP '56), Dr. Tom Goodale (IAGA '62) who presented another session on values and ethics with the Dorm Counselors' help, and Will Keim, this year's keynote speaker. Will Keim absolutely dazzled everyone with his speech on hazing and received the longest standing ovation of the School for his efforts.

Part of the new program for the 61st Leadership School included three workshop sessions where the entire delegation was divided into thirds. Each third received education on ritual, risk management, social planning, finances, hazing and member education. The feedback on this forum has been very positive, and we expect to keep working with it at future Leadership Schools.

The chapter meetings also took on a new look. We shrunk them by about five members, using a single facilitator who received input from a Dorm Counselor. Marty Wigglesworth (KYKA '84), the fraternity's educational advisor, re-designed the entire teaching guide to incorporate general sessions, workshops, chapter meetings and the overall Leadership

School experience. The open atmosphere and less restrictive reign given to the teaching faculty allowed for some valuable interpersonal education and communication.

This year's theme was "Brotherhood's Mighty Roar: Leading by Example." Ken Tracey (NMAL '70) Director of Leadership Training, challenged the delegation to take everything that they had learned back to their respective chapters. The best way for the message to translate from the International Leadership School to the chapters is to lead by example. Collectively leading by example will come from the combined chapters in the form of a mighty roar to the fraternal world.

South Florida takes SAE WORLD SERIES for third year!

By Gary Mason

Summer showers delayed the opening of the 12th annual Sigma Alpha Epsilon World Series in New Orleans on June 14, but the rains finally yielded to Eminent Supreme Chronicler Tom Bower as he threw out the ceremonial first pitch. Twenty-one teams gathered this year to compete for the title.

Early action was intense as Christian Brothers hung on until the last out to defeat Louisiana State in the tournament's first game. The chapter from West Florida sent two teams to compete and requested to play each other to settle an intra-chapter rivalry. The West Florida A team solidified their A status by drumming the West Florida B team, 15-0. The West Florida B team later embarrassed themselves again by losing to the Southern Mississippi actives, 25-0. Two ugly losses and the inability to score even one run earned it the tournament's "Last Place" award.

The games began early the next day and both Texas A & M alumni teams proved to be morning players as each chalked up easy victories. The two A & M teams later faced off against each other for the Phoenix Division title. The victorious alum team swept two games, 11-6 and 2-1.

In other action, defending two-time tournament champion South Florida slammed Louisiana Tech, 26-1. They then beat the Texas A & M actives 7-1 and 20-9 to clinch the tournament's Lion Division. In the DeVotie Division, the Florida State alums allowed only one run in three games to win the division title.

The Southern Mississippi alums proved that age was not a deterrent as they destroyed their Southern Mississippi active chapter, 21-0. Southern Miss. alumnus Michael Rowells' four home runs established a new SAE World Series single game home run record to key the victory. The active brothers from Southwest Texas State held their own against the power hitters from Southern Miss. as they lost a close game 5-4 for the Minerva Division title. The Earthquakes from California State-Northridge defeated three worthy opponents before losing to the Florida State alums. Cal State-Northridge team captain Joe Dagata proudly accepted the tournament's Farthest Distance Traveled Award for the third consecutive year, and for an encore toured the country on their two-week long trip home to California.

By Saturday afternoon each of the four division champions and runners-up graduated to the tournament's single elimination Phi Alpha championship round. Tournament favorite South Florida whipped both Southwest Texas State and the Texas A & M alums, 16-5 and 10-3 respectively, to earn a championship game berth. Meanwhile, cross-state rival

the Florida State alums had a solid first-round playoff victory over the Texas A & M actives, 13-5. The semi-final game was as close as they come as the Florida State alums scored two runs in their last at bat to steal a 5-4 victory over the Southern Mississippi alums.

The championship game pitted the defending champs from South Florida against the Florida State alums. Both teams played flawless defense as the score was locked at 2-2 after three innings. In the top of the fourth inning, South Florida exploded with four runs which were quickly answered by Florida State's two runs to give South Florida a brief 6-4 lead. In the bottom of the fifth inning, Florida State's Pat Morris had a two-run single which was followed by a sacrifice fly to give the Seminoles a 7-6 lead. South Florida stayed cold in the top of the sixth and Florida State alum Ron Draa sparked another three-run rally to extend Florida State's lead to 10-6. In the seventh and final inning, South Florida got one more chance. Tournament MVP Andrew Fleischacker's deep fly down the left field line tipped off the left fielder's glove to score two runs with no outs. South Florida's Tim Foley then hit a single RBI which closed the gap to 10-9. Mike Conklin then tripled with a line drive to left centerfield and drove in another run to tie the score at 10. Two outs later, Mike Conklin scored the go ahead run on Tim Valdez's single to give South Florida an 11-10 lead. In the bottom of the last inning, the upset-minded Florida State alums were able to walk their first three batters with no outs. The next two batters fouled out to the catcher. Florida State's last batter grounded out to the pitcher as South Florida preserved an 11-10 nail-biter victory.

After the games, everyone ventured to the French Quarter to celebrate the brotherhood and spirit of Sigma Alpha Epsilon. South Florida proudly accepted their third straight SAE World Series championship trophy and vowed to return to New Orleans in 1997 to preserve their dynasty.

Rush Recommendation

Alumni can help our chapters increase their number of quality members by letting the Fraternity Office know of an incoming college freshman or an independent student who would be a good candidate for membership into ΣΑΕ. If you know of any student that will attend or is attending an institution where an ΣΑΕ chapter is located, please fill out this form and fax or mail it to the Fraternity Office. The office will forward it to the respective chapter. Any information alumni can provide will not only benefit our chapters, but would also benefit the individual.

"The Tinkling of the Ice" ~ Am I an Alcoholic?

E. Wesley Ely, M.D., M.P.H., (Tulane '85)

I had good goals and the best of aspirations, but going to college in New Orleans created numerous diversions. At $\Sigma\Lambda E$ I had found the perfect group of friends to glide through what would undoubtedly be the most carefree years of my life. Perhaps my greatest diversion, however, was working as a bartender at the well-known Audubon Tavern II (ATII). This was a prestigious position because of its high profile (or so we thought). I enjoyed the "privilege" of helping literally thousands of students celebrate throughout the duration of their four-year paid vacation.

Ironically, we thought our behavior was exemplary—we truly believed we were the most successful and skilled partiers on any college campus throughout the country. Night after night, watermelon shots and kamikazes were guzzled like a runner gulping Gatorade at the end of a 10K run. We'd dance, have fun with our best friends and then proceed to drive home in a blurry state. We were lucky to make it through those years.

Having escaped disaster during my time as an undergraduate, I entered the Tulane Medical School without skipping a beat. During my fifth consecutive Mardi Gras, I left ATII en route for Zulu, the Mardi Gras parade, on the morning of Fat Tuesday. Of course, I had been out all night, as all serious Mardi Gras-goers should be. Less than 100 yards down Magazine Street, I veered into the oncoming lane and hit two fellow students riding a motorcycle. One was uninjured, but the other had large gashes in his forehead and shin. While a friend shoved toothpaste down my mouth to help prevent the inevitable DUI or DWI, I prayed that both of these fellows would be OK. In the end, they were both fine, and no criminal charges or lawsuits were pursued.

On the morning after this accident, I had to address the possibility that I might be an alcoholic. This incredibly frightening and sobering thought threatened to negate all of my past accomplishments and hopes for the future.

Could I be an alcoholic? Many would say no. I graduated *summa cum laude* from Tulane and was the top scholar in the biology department and a member of Phi Beta Kappa.

However, I knew differently. Night after night of bartending and fraternity parties could have been feeding my dependency. Some of the chapter's favorite stories involved me and my reckless abandon during parties (though others dwarfed my attempts at Animal House reenactment). Many times I would not remember multiple events during parties. Blackouts were commonplace and really almost routine. I thought everyone had blackouts when they drank.

"I can hear the ice clinking; See the rich color of the bourbon; the great colorless martini on the rocks; the cold brown bottle of beer with its promises. Liquor, with its heady dreams, but it schemes to destroy, melts rich, hot smooth flavor; goes down easily, quenching my thirst for the moment. Then why can't it end there. Why must I drink again and again. Searching for what impossible outlet? Or is it oblivion I seek?" "The Tinkling of the Ice," M.B. 1969

At this point I decided to confront the issue head on. It was now Lent and I decided to avoid alcohol as my Lenten resolution. I was scared of failure, especially with parties and trips on the horizon. But it didn't happen—I did not fail! In fact, that evening marked the last time that I ever drank to the point of being out of control. In short, I proved to myself that I had mastery over alcohol. But my experience is not the norm.

My story ends much more positively than other accounts. I had all the symptoms of an alcoholic, and yet I was blessed not to have this disease. And it is a *disease*, not a weakness. Just as people with hypertension or diabetes have to take specific measures to control their health problems, alcoholics need to take very definite actions for lifelong success in the battle against drinking. We must remember that social and genetic factors are contributory. There is scientific evidence that psychological addictions to alcohol and drugs have a biological basis. It is believed that chemical abnormalities in the nucleus accumbens, the part of the brain known as the "pleasure center," may predispose some people to tremendous difficulties with addiction. In addition, these problems can be inherited, particularly from fathers to sons.

If you're concerned about your own actions or the actions of a loved one, there is a simple first step you can take. Through a very simple set of questions, the CAGE questions, you can assess quickly whether or not alcoholism (or drug addiction) is a possibility for you or your friends.

1. Do you ever feel that you should **Cut back** your drinking?
2. Have you ever been **Annoyed** when others advised you to decrease your alcohol intake, or have others ever been **Angered** by your drinking?
3. Do you ever feel **GUILTY** about your drinking?
4. Do you ever have an **"Eye opener"** (drink) in the morning?

A "yes" answer to two or more of these questions identifies a 75 percent to 90 percent likelihood of having a grave problem with alcohol or drugs. A "yes" answer to number 4 alone carries extremely worrisome implications, due to the possibility that you are fighting off withdrawal symptoms. Do not be deceived by the simplicity of the questions or by how many of your friends will answer yes to more than two of these questions. The fact is that serious alcohol and narcotic dependency is present in up to 10 percent of the U.S. adult population.

If you or your friends answered yes to two or more of the above questions, you may have a dangerous and life-threatening vulnerability to alcohol or drugs. It would be wise for you to seek professional help and to seriously reevaluate your own behavior and social activities. Contacting your local chapter of Alcoholics Anonymous, Narcotics Anonymous or your school health services is the next step. Only 10 percent of alcoholic patients stop drinking without formal treatment. This may be one of the wisest decisions of your entire life.

"And so again today, I'll not drink. And in so doing see goodness in people; I'm not their judge. When you have gone low, you are not so superior. But still I recognize my own attributes. God gave them and I'll build on them, I will not insult Him any more by refusing the gifts He has given; I will stay sober." "The Tinkling of the Ice," M.B., 1969

Life is precious. Don't lose it!
