

GREETINGS BROTHERS,

As an organization, Sigma Alpha Epsilon is coming off a reasonably successful year: membership is up, we can now track and coach to our educational programming, risk management incidents are down significantly year-over-year, we are making strides in our alumni programs, and we overcame several headwinds to have a good year financially.

For FY26, we remain focused on continuous improvement across our five strategic goals: Growth, Education/Leadership Development, Risk Management, Alumni Engagement, and Financial Responsibility.

Two additional primary focus areas for FY26 are Communication Strategy and keep alignment between the Fraternity Service Center and Province Archons.

COMMUNICATION STRATEGY

We are committed to strengthening Sigma Alpha Epsilon's reputation and engagement by delivering clear, consistent, and values-driven messaging highlighting friendship, scholarship, leadership, and service. We aim to build trust with collegiate members, parents, alumni, universities, and the general public.

To do this, we will proactively share positive stories to enhance SAE's brand awareness, support recruitment and retention, and foster lifelong alumni support. We know that SAE gives its members the essential life skills – leadership under pressure, integrity in action, and Brotherhood through adversity – that no textbook can teach, but every successful man must master.

By sharing stories where this truth is evident, we will show that membership in SAE is life-changing, opening doors and opportunities to our members each day. True Gentlemen are not made in the classroom. They are shaped by real challenges, real

relationships, and real responsibility. We will also show that we are an organization where every SAE Chapter and member must earn the right to carry our letters through demonstrated core values.

PROVINCE ARCHONS

Province Archons are essential partners in the success of Sigma Alpha Epsilon. Brothers who serve do so at the pleasure of their constituents – the Chapters Collegiate and Alumni Associations within each respective Province, based on their dedication to the ideals of Sigma Alpha Epsilon.

For the first time in history, we have invested in a dedicated resource, Jake Showalter, Associate Director of Strategic Operations, to work with Province Archons. Together, the Fraternity Service Center and Province Archons have developed common goals, and the FSC has provided business tools, such as a Zoom license, Slack workspace, and access to a Board management platform, to help Province Archons be more effective as a team.

The second week of October, we hosted the annual Tri-Board meeting, consisting of the Foundation Board of Trustees, F&H Board of Directors, the Supreme Council, Province Archon leadership, and key members of the FSC staff at the Levere Memorial Temple. Having attended these sessions for the last twelve years in one capacity or another, I can honestly say this was by far the most productive meeting I have ever attended. All three Boards are vested, committed, and determined to move forward, placing the best interests of the Brotherhood first.

We are not where we want to be, but we have a plan, are making steady progress, taking reasonable risks, learning from our mistakes, and focusing on continuous improvement.

We are committed to honoring our past while creating fraternity for a new generation and beyond.

A handwritten signature in black ink, appearing to read 'Steve Mitchell', written in a cursive style.

THE MANY HANDS OF FRED PHELPS

Fred Phelps (Eastern New Mexico '64) has shaped the sound, spirit, and cultural heartbeat of Sigma Alpha Epsilon for over six decades. Phelps has been called many things: professor, dean, mentor, performer. But within SAE, his most enduring title is simple: the fraternity's music man.

STRENGTHENING THE BONDS OF BROTHERHOOD

A VISION FOR SIGMA ALPHA EPSILON HONORING OUR PAST, UNITING IN THE PRESENT, AND BUILDING ONE SAE FOR LIFE

INTRODUCTION: THE MEANING OF BEING CALLED 'BROTHER'

There is a distinct moment in every Sigma Alpha Epsilon's journey when the word "Brother" becomes more than a greeting—it becomes a promise. I remember the first time someone called me "Brother" and the sense of belonging that washed over me. It

wasn't just an introduction; it was an invitation to a lifelong bond built on trust, respect, and genuine care. The title "Brother" is sacred, and it reminds us that our connection transcends campus borders, years, and circumstances.

THE FOUNDATION: OUR CREED, HISTORY, SONGS, AND RITUAL

Sigma Alpha Epsilon stands on the pillars of a rich history and a time-honored creed. Our songs echo through generations, carrying the stories and values of those who came before us. Ritual is not just ceremony—it is the heartbeat of our brotherhood, grounding us in the True Gentleman's ideals. By reciting our creed and singing our songs, we reaffirm the principles that unite us and guide our actions. These traditions are more than reminders of the past; they are tools for shaping our future.

WHY WE STILL MATTER

We often read that Fraternities and Sororities are institutions of the past and not relevant in today's world. But nothing could be further from the truth. Men are facing more challenges today than ever before. Mental health being one of the most prominent. Only 22% of college men seek help for mental health

issues. College campuses see far more women utilizing counseling services than their male counterparts. Our brotherhood alone is not the solution. However, we know that Fraternities can provide mental health support through built-in social networks, a sense of belonging, and shared values.

Leadership, mentoring, and career opportunities continue to be tangible benefits of our brotherhood. Leadership School, Career Connect, Inner Circle, Regional Conventions, and Ritual Institute are just a few examples that provide unique opportunities for growth and development.

UNITY AND IDENTITY: EMBRACING 'ONE SAE'

Too often, organizations fragment into cliques or rivalries. But SAE must remain steadfast in its unity. "One SAE" is not just a slogan—it is a call to rise above divisions and reject partisanship. We are bound not by geography or background, but by shared values. To truly embody brotherhood, we must foster inclusivity, listen to each other, and ensure every member—active or alumni—feels seen and heard. One of the most connecting of those shared values is our Ritual. It is essential that every Chapter is performing Ritual on a regular basis. If your Chapter needs help and support, please contact the FSC. We have many brothers that would be honored to help with your ritual growth and development.

As Founder from Cal Psi I have a special fondness for my Chapter and all of the special memories and relationships that it represents. But the concept of ONESAE reinforces that our Brotherhood extends beyond our local chapter. Once a man has been initiated into our beloved order, he is a Brother and should be given the love, kindness, and respect that he so rightly deserves.

Newly-elected ESA Johnson addresses the 169th Anniversary Convention in Atlanta, GA.

GROWTH THROUGH INTEGRITY: STRATEGIES TO STRENGTHEN OUR FRATERNITY

No organization is without blemishes. Our history has many controversies that do not align with our aspirational values, ritual and what it is to be a True Gentleman. But our creed calls us to face them with honesty and courage. Integrity means acknowledging our shortcomings and working relentlessly to improve. We must foster environments where courageous conversations are welcomed, and every brother feels safe to speak and grow. The True Gentleman standard is not a destination, but a journey we walk together. The Council is committed to building a culture that will demonstrate those values in a real and meaningful way.

But we cannot do it alone. Our future depends on thoughtful expansion and active engagement of our non-collegiate members. Words resonate differently for each of us. However, we consistently say our Brotherhood is for life but use the term alumni. You may be an alumnus from your high school or college but that is not true for your membership in SAE.

Chapters thrive when supported by brothers who mentor, advise, and celebrate with younger brothers. I propose regular reunions, mentorship programs, and digital platforms to keep us connected. We must also reach beyond our campuses, establishing SAE's presence globally and welcoming diverse perspectives. Growth is not only about numbers—it is about deepening our commitment and impact.

CALL TO ACTION: LIVING THE TRUE GENTLEMAN CREED

I challenge every SAE—to engage deeply with our brotherhood. Attend meetings, reach out to new members, and initiate conversations that matter. Let us live our creed with courage and kindness, remembering that every action reflects on our fraternity. By supporting one another and upholding our values, we strengthen the bonds that make SAE unique.

CONCLUSION: REAFFIRMING UNITY, RESPECT, AND ONGOING COMMITMENT

As I look ahead, my vision for Sigma Alpha Epsilon is clear: a fraternity rooted in respect, unity, and lifelong engagement. Let us honor our past, learn from our challenges, and move forward together. We must do a better job telling our own story. The outside world most often hears about us when we do something wrong. Share the positive things you are doing on social media. Use the #ONESAE. By embracing inclusivity, integrity, and striving to be True Gentlemen in all we do. We can uplift and inspire generations to come.

NEWS FROM HQ

STAFF UPDATES

The Fraternity Service Center welcomed Zeke Hernandez (DePauw '25), Trace Ruffeno (Texas A&M '25), and Walter Stackler (Puget Sound '25) to the staff as Chapter Services Consultants, alongside Jacob Caballero (Worcester '25) as a Risk Management Consultant and Leonard Lucas as the IT Specialist.

Dr. Steadman Boston (Winthrop '17) has accepted a new role as Senior Director of Operations, Dustin Stewart (Georgia Southern-Armstrong '17) as Director of Program Innovation, Dr. Anthony Mack (North Florida '11) as Director of Chapter Services, Kevin Gath (Western Carolina '14) as Senior Director of Alumni Engagement, Jake Showalter (Case Western Reserve '98) as Associate Director of Strategic Operations, Ross Pometta (Loyola Chicago '07) as Analytics & Database Administrator, Riley Sullivan (Mount Union '22) as Manager of Membership & Records, Pete Engle (Millikin '00) as Associate Director of Expansion, Layne Smith (Winthrop '19) as Associate Director of Risk Management, Madison Simmons as Assistant Director of Risk

Management, Justin Maidenberg (Cal State Northridge '15) as Coordinator of Alumni Engagement, and Jennifer Byrd-Alvarado as the Chief of Staff. In addition to his role with SAE Financial & Housing, Juan Faria (Salem State '17) now oversees accounting for all three entities as the Senior Director of Finance.

The SAE Foundation welcomed Jen Lehman as Coordinator of Donor Services & Stewardship. Laura Bianchi has accepted a new role as Chief of Staff, and Alison Lai as Director of Donor Services & Stewardship.

SAE Financial & Housing welcomed Melia McDonald as Accounts Payable Specialist, Tommy Cagnassola as Senior Accountant, Jack Semerjian (Bradley '25) as Staff Accountant, Robert Wilber as Asset Manager, and Claire Barkett as Assistant Asset Manager.

To view the entire SAE staff, visit sae.net/about/team.

JOHN O. MOSELEY LEADERSHIP SCHOOL REVISED PROGRAMMING

Are you a collegiate brother who wants to take your leadership skills to the next level? Register today to experience the new & improved Leadership School with sessions dedicated to helping attendees develop the skills needed to be a successful leader.

This is not officer training. From Fraternity roles to professional goals, attendees will leave with an understanding of how to apply leadership skills in the real world, a network of fellow brothers to call on, and memories that will last a lifetime.

IN THEIR WORDS

The Florida Chi Chapter of Sigma Alpha Epsilon at the University of Tampa has embarked on an inspiring journey to recharter—driven by dedication, leadership, and an unrelenting commitment to excellence. After 12 years of persistent effort by the Florida Chi Alumni Association, Sigma Alpha Epsilon was officially welcomed back to the University of Tampa. The chapter's revival began with one determined individual, Trevor Sandler, who would go on to become the chapter's first Eminent Archon. Working alongside national staff and local alumni, Trevor helped lay the foundation for Florida Chi's relaunch. Through strategic recruitment and steadfast determination, the chapter quickly grew to 47 founding brothers in its first semester. In their second semester, the brothers built on this momentum—expanding their brotherhood, deepening their bonds, and officially chartering with 56 founding members. Their rapid growth and strong presence have reestablished Florida Chi as a rising force on campus.

169TH ANNIVERSARY CONVENTION RECAP

From June 19 to 22, 440 Sigma Alpha Epsilon brothers and guests from 204 chapters united in Atlanta, Georgia, for the 169th Anniversary Convention: the largest business meeting of the organization. Delegates voted upon Supreme Council candidates and proposals for the Fraternity Laws, attended forums to learn how we continue to push our fraternity forward, and enjoyed time with brothers from across the Realm as they deepened the bonds of brotherhood.

LEADERS OF CHANGE: YOUR 2025-2027 SUPREME COUNCIL BY JOHNNY SAO (MILLIKIN '11)

Change is inevitable. Embracing and leading change is an essential component of personal development, professional achievement, and societal progress. Without it, we risk stagnation – getting stuck in patterns, habits, and systems that could be improved. Embracing change means being open to improvement - it challenges us to rethink what we know and empowers us to better ourselves, and in turn, our communities.

Each biennium, Sigma Alpha Epsilon focuses on change at our National Convention. It is billed as our organization's "biggest meeting" and boasts more than 400 delegates representing chapters, provinces, and alumni associations from across the Realm. Aside from voting on Fraternity Laws, one of the more prominent events is installing the new Supreme Council, our all-volunteer Board of Directors who are charged with leading our fraternity.

The gentlemen on the 2025-2027 Supreme Council are men of action and harbingers of change. Not a meeting goes by where they aren't preaching their mantra - "continuous improvement" - as they work on behalf of our brothers around the Realm to make SAE the best organization it can be. As the leaders of Sigma Alpha Epsilon, they govern how we operate, set the vision for our fraternity and in turn, lead the way in shaping the overall culture of our organization. They represent our vast and diverse membership (spanning from new initiates all the way to our brothers in Chapter Eternal) and are in fact themselves, a diverse group of people. Each has his own unique story and their journeys that ultimately brought them to the Supreme Council are as varied and fascinating as the men themselves.

Our very own Eminent Supreme Archon did not join the Fraternity through the typical underclass recruitment route. SAE was just starting the chapter at UC-Irvine when **Ben Johnson (UC-Irvine '87)** arrived on campus as a junior. The only thing he knew about the Greek-letter world was what was in the movies – satirical exaggerations of the real-life experience.

What drew Ben in was the True Gentleman, something he was not expecting from a fraternity. The high standards set forth by our guiding creed resonate for him as strongly today as they did then. When it came time to charter California Psi and initiate its Founding Fathers, Ben couldn't afford the fees. So, his soon-to-be Brothers split the cost.

"They trusted me without hesitation. That simple gesture has really molded who I am as a person, both the values I live by and my expectations of others." - Ben Johnson

One of Ben's favorite lines from the True Gentleman is "who speaks with frankness, but always with sincerity and sympathy." He challenges everyone to have the courage to speak up, no matter the subject. There are constructive and respectful ways to talk about even the most difficult topic, and you can always count on Ben to give his perspective on a topic.

While some are always ready to chime in, others aren't as extroverted. For those that have not met **Jim Skaggs (Oklahoma State '78)**, he is not a shy person. At least today he isn't. Our Eminent Supreme Deputy Archon used to be "deathly shy and socially awkward" – which is unimaginable for anyone who's had a conversation with him before.

Jim gives credit to SAE for his outwardness and growth as a person. He joined the chapter at Oklahoma State to build friendship and fellowship with others, but got so much more than that. When Jim was taking care of his terminally ill mother, his chapter Brothers drove through an ice storm just to be with him. Ice storms don't happen in Oklahoma.

"I always knew these were my Brothers, but I didn't truly understand what it meant to really be there for someone until that moment. You're there for everything, no matter what." - Jim Skaggs

LEADERS OF CHANGE: YOUR 2025-2027 SUPREME COUNCIL

Since then, Jim has been there for everything. He doesn't miss a meeting (if he can) and he still visits the chapter (when he can). He has a never-ending drive to give back to the organization that gave him his Brothers and molded him into the person he is today. His guidance has shaped Oklahoma Mu into one of the few chapters that have received multiple Zeal awards.

Joe Richey (Penn State-University Park '09) currently serves as our Eminent Supreme Warden. Elected in 2023, he is among the youngest ever chosen to serve on our Supreme Council. After joining the chapter at Penn State in the Fall of 2005, Brother Richey soon discovered, through the encouragement and mentorship of great SAE brothers that took him under their wings, that he was meant to be a leader - and he has since proven himself time and again.

Joe was elected to his first of two terms as Eminent Archon of his chapter as just a rising sophomore. You can still hear the emotion in his voice when talking about the experience:

"There is no greater honor than being elected by your peers to lead them. I learned that lesson first-hand in the halls of my chapter house years ago and it still rings true for me today." Over his two years, his commitment and leadership helped shift the culture at Pennsylvania Alpha-Zeta and set a foundation of excellence that exists to this day.

"HAVING THE RIGHT PEOPLE AROUND YOU MATTERS - IN FRATERNITY, IN BUSINESS, IN LIFE."

"I had great advisors and mentors who truly made me feel like I was a leader and a difference-maker. They empowered me and challenged me to believe in myself and lead through example," said Joe. "Having the right people around you matters - in fraternity, in business, in life. I can't tell you how proud I am to serve with my brother Supreme Council members - they're upright, dedicated, and high-minded men who are not afraid of a challenge."

Like his contemporaries on the Supreme Council, Joe has a vast list of accomplishments and leadership roles across various levels of SAE. Many know him as the founder of the first ever Alumni Affinity Group (SAE Hunters & Anglers), which has since grown to over 800 members. In 2023, he served as the impetus behind the founding of the SAE Historic Society, which has flourished and currently boasts nearly 1200 members around the Realm.

When asked what has been the key to the success of these groups so far, Joe's response was befitting to the type of leader he is: "It's all about establishing a clear vision and empowering a team of strong leaders to take the ball and run with it."

Dr. Joe Halcomb (Kentucky '74) knows a thing or two about strong leadership. The former Eminent Archon and Kentucky graduate is the Founder and CEO of Phoenix Initiare and a partner at Telegraph Hill Partners. He draws on his background in engineering and medicine to help life science and healthcare companies achieve their growth objectives. He's also held senior executive positions in world-leading companies in the medical device and biotechnology industries.

Sigma Alpha Epsilon instilled a drive within our Eminent Supreme Herald to give back. To "think of the rights and feelings of others" if you will. With the professional success that he's had, you won't find many more people that have been more generous with their wealth. His generosity and support of the University of Kentucky has been so impactful that the Biomedical Engineering Department there is named in his honor.

"THE MORE YOU GIVE, THE BIGGER IMPACT YOU WILL HAVE."
DR. JOE HALCOMB

Dr. Joe Halcomb, a physician, exemplifies compassion. He pursued biomedical engineering to positively impact people's lives by developing engineering solutions for challenges in medicine and healthcare. He's also the personification of giving back, not only to his school, but to his Fraternity. A leader through many avenues, he's been on the Foundation Board, chairing the Scholarship Commission, and taught at Leadership School and DeVotie Ritual Institute. Dr. Halcomb is a personification of "Brother Hero", a man of great character and achievement who is as humble as they come.

If you've never been to an SAE event, I recommend you go. I had the privilege of attending the 153rd Anniversary Convention in 2009 as an undergraduate and also served on the Levere Memorial Temple headquarters staff from 2015-2022. I can safely say the most valuable and best part of any SAE event is the connections with others.

Our Eminent Supreme Chronicler is well versed in SAE events. It's where I met him many years ago, and where through the years, he's helped connect and educate multiple generations of True Gentlemen.

Dave Griego (New Mexico '83) is a staple at the DeVotie Ritual Institute and a regular at almost every other national SAE event. You cannot miss him - in part because of

his wonderful collection of bow ties, or perhaps due to the fact that he is one of the exceedingly few elected to the Supreme Council in our long history to have been honored with the Distinguished Service Award prior to their election.

Dave keeps coming back to events for two reasons: living our values and sharing that with others. He was taught, and lives, that membership in Sigma Alpha Epsilon is for life, not just while you're in school. The True Gentlemen, our Ritual, and everything else that guides our Fraternity are our way of life, forever. As he often points out, the collegiate tenure is the shortest of our time as SAEs.

“NOT ONLY DO I WANT PEOPLE TO LEARN IT, I WANT TO HELP THEM TO LIVE IT. THESE ARE TEACHINGS THAT NEVER GO AWAY.”
DAVE GRIEGO

I asked each of the current Supreme Council members what they think needs to change the most about the Fraternity. With their varied backgrounds, it's no wonder that I got five very distinct

(but very fitting) answers. It's reflective of what SAE is: a collection of unique individuals bringing a wide range of perspectives to the table that is fully embracing change and growth, both personally and as an organization.

Your Supreme Council for 2025-2027 is not afraid of change – they embrace it. These men know how powerful friendships can be. They are brothers united in their commitment to our Ritual, to SAE values and teachings, who believe in honoring our history and heritage. They carve paths for others, face challenges head on, and hold others accountable to high standards. They give back to their beloved Sigma Alpha Epsilon and ensure generations beyond ours will have the same opportunity at the Fraternal bonds they have. These men are leaders of change.

A wooden plaque with a purple Greek letter Alpha Phi banner and a gold key. The banner has the Greek letters ΑΛΦΑ and ΕΨΙΛΟΝ on it. The key is gold with a purple handle. The plaque is set against a dark background with some greenery.

2024-2025 FRATERNITY AWARDS COMPETITION

TRUE GENTLEMAN OF THE YEAR

RICHIE PRICE, CLASS OF 2026, IS A PROUD BROTHER OF SIGMA ALPHA EPSILON HAILING FROM THE UNIVERSITY OF MISSISSIPPI (MISSISSIPPI GAMMA) CHAPTER.

The True Gentleman of the Year Award is the highest honor the Fraternity can bestow on a collegiate brother. The award, first given in 2000, is presented annually to an undergraduate who has been determined to be the most outstanding collegiate in Sigma Alpha Epsilon, considering scholastic achievement, fraternity involvement, university leadership, and community service. The True Gentleman of the Year receives a \$5,000 scholarship award, endowed by Warren P. Poslunsy (Kettering '69) to recognize brothers who have demonstrated outstanding leadership and service in the Fraternity.

THE JOHN O. MOSELEY AWARD FOR FRATERNITY ZEAL

recognizes the chapters that best exemplify model chapters in Sigma Alpha Epsilon. Zeal chapters excel in their operations and brotherhood, fulfilling the vision of our Founding Fathers and their members, and by living the lives of true gentlemen. These chapters go above and beyond expectations and demonstrate true zeal and excitement for the Fraternity, exhibiting strong bonds of brotherhood. Winning chapters receive a \$5,000 donation to their Chapter Education Funds, endowed by Warren P. Poslusny (Kettering '69) to recognize chapters that have demonstrated outstanding leadership and service in the Fraternity.

STUART ZOOCK OUTSTANDING ADVISORY BOARD AWARD

Winner: Youngstown State University (Ohio Alpha)
Runner-Up: Marshall University (West Virginia Alpha)

Sigma Alpha Epsilon

DISTINGUISHED SERVICE AWARD RECIPIENTS

Recognizing a lifetime of service and loyalty to the Fraternity, the Distinguished Service Award is the highest individual award a member of Sigma Alpha Epsilon may receive. Their actions exhibit their understanding of the Fraternity's teachings, adherence to Fraternity Laws, attention to the promotion of its welfare, and exemplary conduct that guards well its honor and high standing.

THOMAS A. "BEAR" BOWER (CREIGHTON '70)

RECOGNIZED WITH THE 164TH DISTINGUISHED SERVICE AWARD

Like many of our best leaders, Brother Bower reconnected with our Fraternity while serving as a Chapter Advisor. The connection he felt fanned the flame, and he quickly took a Province Archon role, then found himself teaching as a faculty member of Leadership School. It didn't stop there. Bear served on several committees that led to his election as Eminent Supreme Chronicler in 1995, and ultimately as Eminent Supreme Archon from 2003 to 2005. As an outspoken leader against hazing, you saw the launch of Minerva's Shield, the Fraternity's official health and safety guide. For his outstanding leadership through change and innovation, the Supreme Council of Sigma Alpha Epsilon awarded Brother Bower the 164th Distinguished Service Award at the 169th Anniversary Convention in Atlanta, GA.

WILLIAM V. MCCANN JR. (IDAHO '66)

RECOGNIZED WITH THE 165TH DISTINGUISHED SERVICE AWARD

With a property management and law background, Brother McCann helped lead a \$1.5 million remodel of his chapter house. It was no easy feat and took years of fundraising, but he created a lasting, physical beacon for the years to come. Brother McCann eventually found his way onto the Financial & Housing Board of Directors, where he continues to promote and build stronger chapters through great housing. For his dedication and loyalty, the Supreme Council of Sigma Alpha Epsilon awarded Brother McCann the 165th Distinguished Service Award at the 169th Anniversary Convention in Atlanta, GA.

DEAN K. MORELL (OREGON '79)

RECOGNIZED WITH THE 166TH DISTINGUISHED SERVICE AWARD

Brother Morell has an extensive background in finance and has led hundreds of people who have touched millions of dollars. He has taken many roles within SAE and various other volunteer-based organizations, always focusing on education and giving back. These experiences led him to serve on the SAE Foundation's Board of Trustees for nearly a decade. As the leader of the Investment Committee, he tripled its assets during a time when monetary support was declining. Spearheaded by his efforts, the Levere Memorial Temple has a permanent bust and plaque that honors our Brothers who passed during the Vietnam War. Brother Morell also commissions, funds, and gifts the bronze lion to the chapter that wins the John O. Moseley Award for Fraternity Zeal each year. For his continuous lifelong support and mentorship, the Supreme Council of Sigma Alpha Epsilon awarded Brother Morell the 166th Distinguished Service Award at the 169th Anniversary Convention in Atlanta, GA.

JAMES R. MOUNTAIN (MONTANA '81)

RECOGNIZED WITH THE 167TH DISTINGUISHED SERVICE AWARD

Through Brother Mountain's leadership in his career, he led efforts that raised \$1 million to renovate his chapter's house and its property, securing the home for future generations. Beyond his chapter, he served on SAE's Alumni Services Committee and later as Chairman of the SAE Foundation's Board of Trustees (2020–2023). At the same time, he contributed as a Trustee and Treasurer of the University of Montana Foundation, a six-figure donor to both SAE and his alma mater. For his unwavering spirit, generosity, and dedication to advancing brotherhood and education, the Supreme Council of Sigma Alpha Epsilon awarded Brother Mountain the 167th Distinguished Service Award at the 169th Anniversary Convention in Atlanta, GA.

JAMES LARRY JONES (MISSISSIPPI STATE '69)

RECOGNIZED WITH THE 168TH DISTINGUISHED SERVICE AWARD

For nearly three decades, Brother Jones led the charge, raised over \$1.5 million to renovate his chapter house, and helped implement lasting policies that strengthened the chapter, which named the new wing in his honor. In 2017, he joined the SAE Financial & Housing Corporation Board, later serving as President (2020–2024), where his passion for housing impacted chapters nationwide. A Past ESA and DSA recipient once said, 'bricks and mortar make a house; family and fond memories make a home', a truth that defines Brother Jones's service. For his lifelong service and leadership, the Supreme Council of Sigma Alpha Epsilon awarded Brother Jones the 168th Distinguished Service Award at the 169th Anniversary Convention in Atlanta, GA.

FRATERNITY RECOGNITION AWARD RECIPIENTS

THIS LIST REFLECTS PRESENTATIONS BETWEEN JANUARY 1 AND JUNE 30, 2025.

Recognition of achievement and dedication to the Fraternity is important. Members and chapters that have distinguished themselves on various levels of the Fraternity or within their professions bring honor not only to themselves but also to Sigma Alpha Epsilon. The Fraternity realizes the value in acknowledging exceptional service and that the presentation of an award of recognition is also a primary way to show our appreciation.

Please Note: To be nominated for and subsequently receive an alumni recognition award, the honoree must have previously been recognized with the award that precedes it in the recognition chain. For example, to be eligible for the Shield of Brotherhood, an alumnus must first have received the Order of Minerva award. If you have any questions regarding which awards an alumnus has received or need clarification on our Alumni Recognition Awards process, please contact Alumni Engagement, alumni@sae.net or (847) 475-1856 ext. 7.

This does not apply to the William McKinley Outstanding Achievement Award.

WILLIAM MCKINLEY OUTSTANDING ACHIEVEMENT AWARD

The William McKinley Outstanding Achievement Award embodies commitment, perseverance, leadership, and service to others.

These virtues were exemplified by Brother William McKinley (Mount Union 1869), the 25th President of the United States. Like McKinley, whose leadership and service to our nation left a lasting legacy, recipients' achievements reflect the highest ideals of Sigma Alpha Epsilon and serve as an inspiration to all its members. Recipients receive a printed certificate and medallion.

Ray J. Artigue (Arizona State '76)

Henry A. Beattie III (Mississippi State '77)

J. Michael Donahoe (Oklahoma '62)

Charles G. Lawrence (Arizona State '62)

SHIELD OF BROTHERHOOD

The Shield of Brotherhood recognizes a brother who consistently excels in voluntary commitment and service for the Fraternity.

TEXAS RHO RAISES \$15,000 IN PICKLEBALL TOURNAMENT FOR LOCAL FAMILIES

Texas Rho's Pickleball Tournament (in partnership with Fiji) on August 28 raised over \$15,000 to benefit the Katherine Ferruzzo Legacy Foundation and the Jenna Lacy Burgess Trust, supporting families impacted by the Texas Floods. The chapter is grateful to the parents, alumni, and friends whose support made this impact possible.

WILEY BALLARD: DUGOUT REPORTER FOR THE ATLANTA BRAVES

Brother Wiley Ballard (Georgia Tech '16), recently named 2024 Sportscaster of the Year, spoke with the Greater Atlanta Alumni Association about his journey from high school sportscaster to the Atlanta Braves dugout.

RECRUITMENT NEVER STOPS

Do you know a young man who should join SAE? Fill out the Recruitment Recommendation Form to let us know!

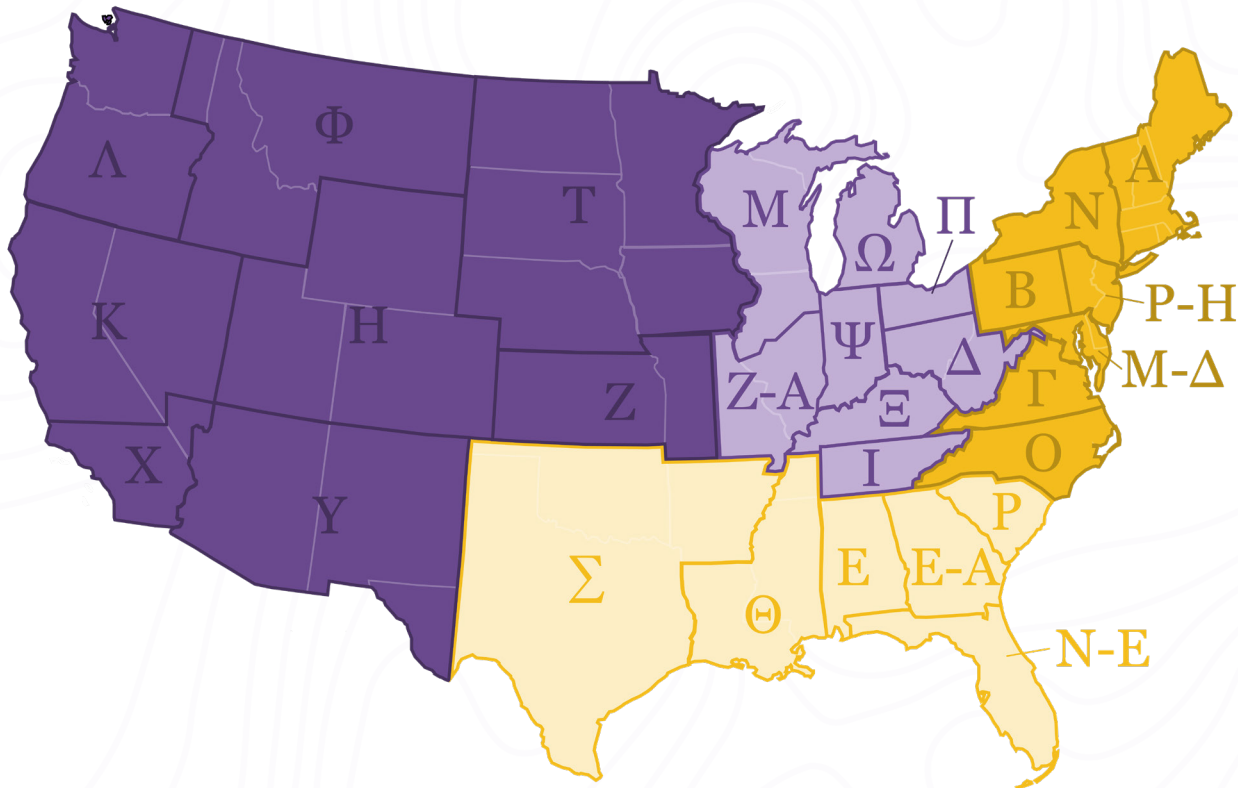

sae.net/resources/recruitment-recommendation-form/

WELCOMING 72 NEW BROTHERS

Congratulations to the exceptional work of the active chapter, and to the 72 new members who recently joined the Mississippi (Mississippi Gamma) chapter of SAE!

THE COUNCIL OF PROVINCE ARCHONS (COPA)

WHAT DOES A PROVINCE ARCHON DO?

Think of a Province Archon as the Fraternity’s “regional coach.” Each Archon oversees a group of chapters — called a Province — and works to keep them connected to the larger Fraternity. They support chapter officers, guide alumni associations, and collaborate with house corporations to ensure every chapter has what it needs to succeed.

Province Archons also serve as the Fraternity’s eyes and ears in their area,

sharing updates, best practices, and challenges with the national organization. Whether helping a chapter boost recruitment, fine-tune its Ritual, improve retention, or get its finances in order, Province Archons play a key role in keeping the “4 R’s” (recruitment, risk, retention, receivables) strong across the Realm.

For the first time, the Fraternity — through efforts led by Jake Showalter (Case Western Reserve ‘98) from the Alumni Engagement team — is making a deliberate effort to elevate the role of

Province Archons. Dedicated resources have been assigned to work directly with Province Archons, aligning goals and strengthening collaboration to ensure chapters, alumni associations, and house corporations receive the support they need to thrive.

Alumni are encouraged to connect with their Province Archon, get involved with local chapter or housing initiatives, and help strengthen the bonds of brotherhood across the Realm.

INTERESTED IN CONNECTING WITH YOUR PROVINCE ARCHON?

Use the **Member Directory** feature of The SAE Portal or contact alumni@sae.net.

STAN STROM (ARIZONA STATE '82) COUNCIL OF PROVINCE ARCHONS CHAIRMAN

Stan Strom is the Province Archon of Upsilon Province. Based in Prescott, Arizona, Stan is an alumnus of Arizona State University (Arizona Beta), where he earned a Bachelor of Science in Finance. He is a licensed Arizona real estate broker and currently serves as Director of Planned Giving at Embry-Riddle Aeronautical University. He is also principal in Arizona's largest solar project, which includes two data centers.

A longtime volunteer and two-term past Province Archon, Stan was inspired to serve again when the position became vacant in 2023, driven by his passion for recruiting and rebuilding the Province back to its glory days. He has served on the Leadership School faculty 12 times, instructed at the Executives Academy, and participated in seven Out-of-Province Investigation Teams to help establish or recharter chapters across the Realm. His most treasured SAE memories include getting married in the Levere Memorial Temple, serving as an E&L Consultant and Director of Chapter Development, and placing an SAE badge on his son.

Outside of fraternity life, Stan enjoys golf, fly fishing, camping, hiking, and gardening. He is the author of *The Pruning Tree: From Rock Bottom to the Penthouse Suite* and *Blue Ribbon Desserts Cookbook*. His personal motto is "Underpromise and overdeliver," and he lives by the belief that "The greatest accomplishment is not in the rising, but in the rising after the fall."

THE COUNCIL OF PROVINCE ARCHONS

CHRISTOPHER SLOTT (NORTH FLORIDA '08)

COUNCIL OF PROVINCE ARCHONS DEPUTY CHAIRMAN

Christopher Slott is the Council of Province Archon's Deputy Chairman. Based in Jacksonville, Florida, Chris is an alumnus of the University of North Florida (Florida Nu) and has a Bachelor of Arts in Political Science with Minor(s) in Religious Studies and Psychology, and holds a Master of Arts in Human Services from Liberty University. Professionally, Chris works for Bank of America (Merril Lynch) as VP Risk Control Governance Specialist.

A longtime volunteer and past Province Archon (2015–2021), Chris was inspired to serve by his desire to give back to the organization that shaped him and to ensure today's members have the tools to thrive. He is driven by a passion to support chapters and provide them with the resources needed for success. One of his most treasured memories is his 2005 initiation into SAE. Outside of fraternity life, Chris enjoys time with his wife Erin and their children, Liam and Rory, and lives by the quote *"From this day to the ending of the world, But we in it shall be remembered. We few, we happy few, we band of brothers; For he to-day that sheds his blood with me shall be my brother."* – William Shakespeare, *Henry V, Act IV, Scene III.*

FRANK WILK IV (TENNESSEE '23)

COUNCIL OF PROVINCE ARCHONS SECRETARY

Serving as the Council of Province Archon's Secretary, Frank Wilk, from Knoxville, Tennessee, is a proud alumnus of the University of Tennessee (Tennessee Kappa, Class of 2023), where he earned a Bachelor of Science in Business Administration. As an undergraduate, Frank served as House Manager and Eminent Archon for Tennessee Kappa, experiences that shaped his leadership style and deepened his commitment to Sigma Alpha Epsilon. Inspired by the impact SAE had on his personal growth and friendships, he chose to serve as Province Archon to give back to the brotherhood and help today's members experience the same opportunities.

In his role as Province Archon for Province Iota, Frank is focused on strengthening alumni engagement and building support networks for undergraduate chapters. He believes that strong alumni involvement is key to sustaining chapter health and success. Frank's favorite SAE memories always point back to the bonds of brotherhood and the moments shared with his chapter brothers. He lives by the guiding motto, *"To whom much is given, much is required."* – Luke 12:48.

Outside of SAE, Frank enjoys spending time at his farm outside Nashville, where he finds balance and perspective away from his busy schedule.

JAKE SHOWALTER (CASE WESTERN RESERVE '98)

ASSOCIATE DIRECTOR OF STRATEGIC OPERATIONS

Jake Showalter, a 1998 graduate of Case Western Reserve University (Ohio Rho), brings more than two decades of leadership and operational experience to his work with Sigma Alpha Epsilon. Before his current role in Alumni Engagement, Jake served for ten years as Vice President of Operations for SAE Financial & Housing Corporation, where he focused on strengthening chapter housing operations and supporting undergraduates' living-learning environments.

He has been deeply involved in fraternity life, serving as Chapter Advisor and Alumni Advisory Board member for Ohio Rho, Trustee of the Ohio Rho House Trust, and Deputy Archon for Province Pi. These experiences provide him with a unique perspective on the needs of both alumni and undergraduates and inspire his commitment to supporting Province Archons throughout the Realm.

In his current role, Jake partners with Province Archons to help them effectively support chapters, alumni associations, and House Corporations, while advancing the Fraternity's "4 R's" — Recruitment, Ritual, Retention, and Receivables — across their provinces. By providing data, resources, and hands-on guidance, he equips Archons (and their Province Councils, when appropriate) to mentor chapters effectively, fostering growth, financial health, and strong brotherhood throughout the Realm.

Jake lives in Columbus, Ohio, with his wife, Jean, their daughter Maddie, a high school senior, and their son Jacob, a high school freshman. Outside of SAE, he enjoys bowling, golf, and playing guitar.

IN THEIR WORDS

The New York Delta Chapter of Sigma Alpha Epsilon at Syracuse University has officially rejoined the Realm. The journey began with a small group of men who shared a vision: to bring SAE back to Syracuse the right way: built on integrity, scholarship, and service. Working closely with national staff, alumni, and campus partners, these Founding Fathers laid a strong foundation for the chapter's future. In their first semester, they grew rapidly, uniting over 40 members, which has now grown to 79, one of the largest emerging chapters of SAE and on the Syracuse campus. Through consistent recruitment, campus involvement, and community engagement, New York Delta quickly reestablished itself as a positive force at Syracuse. Now, with their charter officially restored, the brothers of New York Delta are setting ambitious goals for the future. From academic excellence to philanthropic leadership, they are determined to honor their chapter's storied past while shaping an even greater legacy and lasting impact.

SAE FOUNDATION ANNUAL REPORT

DEAR BROTHERS,

As the leaves begin to turn and a new academic year commences, the Realm of Sigma Alpha Epsilon opens its doors to a new class of aspiring True Gentlemen.

Just as the vibrant colors of autumn signal a time of change and renewal, so too does this

season mark a moment of new beginnings within our Brotherhood. We welcome these men to embark on a lifelong journey built upon the timeless values of friendship, scholarship, leadership, and service, upheld since our founding in 1856. I recall my first fall on campus as a transformative experience, guided by those who came before, creating a seamless transition to college life and all that was to come.

As the Foundation for Sigma Alpha Epsilon, it's moments like these that help inspire your involvement as alumni. SAE is not just an undergraduate experience; it is a lifelong journey. You have an opportunity to give your time, talent, and treasure to continue to shape our great Fraternity and the young men who call it home.

The 2024-2025 Fiscal Year was excellent for the SAE Foundation. Our overall assets grew, the Annual Loyalty Fund saw another record-breaking year, we launched a new initiative with the SAE Historical Society, and we achieved a record level of engagement on Founders' Day. You can read more about these initiatives in this edition of our annual report.

As a reminder, the SAE Foundation exists to support our great fraternity through scholarships, leadership and educational training, and the preservation and maintenance of the Levere Memorial Temple. We have launched a study throughout the Realm,

exploring and expanding our efforts in these areas, as well as your willingness to support them. This work is crucial in laying the groundwork for the Foundation and in supporting our fraternity. By the end of December, the results of a feasibility study will be presented to leadership, and a path forward determined. If you are asked to participate, please do so, knowing that you are helping to strengthen our fraternity for generations to come. If you would like additional information or have any questions regarding our work, please contact me directly at tkilian@sae.net.

As part of the study, and as promised in the spring issue of *The Record*, we will continue to educate and tell the story of the Levere Memorial Temple. As you may recall, the spring issue focused on the origins and the vision behind its inception, bringing us back to SAE's 70th Anniversary Convention in Boston, Massachusetts, in December 1926. In this issue, we'd like to skip ahead to the current state of the Levere Memorial Temple and outline the scope of work required to restore and enhance this historic building.

A special thank you to the Foundation Board of Trustees, the Supreme Council, the Financial & Housing Board of Directors, our Council of Province Archons, donors, and Brothers who rose above in their commitment of their time, talent, and treasure. Without your support, we would not be able to do what we do.

A handwritten signature in black ink, appearing to read 'TKilian', with a long, sweeping underline.

FEATURED INITIATIVE: FOUNDERS' DAY - MARCH 9, 1856

Brothers across the Realm gather on Founders' Day to celebrate the founding of Sigma Alpha Epsilon and reflect on the values that continue to unite our Brotherhood.

This past March, the SAE Foundation proudly launched the 1856 Society, a campaign created to honor the legacy of our Founders and support the next generation of True Gentlemen. Thanks to the generosity of our Brothers, the campaign raised **\$40,000 from over 400 donors**.

As part of the 1856 Society, a new tradition was also launched: a limited-edition Founders' Day pin depicting the Black Warrior River—where Noble Leslie DeVotie first envisioned the ideals of our Brotherhood. This unique collectible was introduced to eligible donors and will serve as the first in a continuing series of annual keepsakes celebrating the founding of Sigma Alpha Epsilon.

In addition, SAE Foundation board members, staff, and volunteers attended eight Founders' Day events across the country, connecting with more than 900 attendees to share the SAE Foundation's mission.

Looking ahead, the Foundation is excited to build on this momentum and celebrate 170 years of the Fraternity on March 9, 2026. We look forward to reuniting with familiar faces and welcoming new Brothers into this growing tradition.

\$75,000 FOR EDUCATIONAL PROGRAMS

JOHN O. MOSELEY LEADERSHIP SCHOOL

Snow and ice blanketed most of the country and disrupted travel plans across the Realm while Sigma Alpha Epsilon's 86th John O. Moseley Leadership School began. Despite Mother Nature's best efforts, a bevy of undergraduates made the annual trip to Chicago, Illinois, to participate in this year's installment. Four hundred and nineteen attendees from one hundred and sixty-five Chapters and Emerging Chapters descended upon the Windy City to take part in a weekend filled with brotherhood, development, and collaboration.

- **129 Phi Alpha Club** members joined
- **\$4,000+** raised while tabling at Leadership School

\$448,000 IN AWARDS & SCHOLARSHIPS

AWARDS & SCHOLARSHIPS

- **318** Chapter Education Fund disbursements totaling **\$285,000**
- **\$163,000** in Scholarships & Awards

KADEN PLAYFORD (MICHIGAN) RECIPIENT OF THE JOSEPH MANCINI LEADERSHIP AWARD

"I was thrilled and I am truly blessed to be part of a brotherhood that values giving back to the current active's education. This money is crucial for helping finance my senior year at the University of Michigan. When I joined SAE as a freshman, an older member gave me powerful advice. He said, 'SAE is whatever you make it. You will get out of it as much as you put into it.' I was never expecting to be rewarded like this; my true reward was becoming closer

to all of my brothers. I wanted to be someone they could depend on. Someone looked to as a leader. And ultimately, someone who could have a good relationship with every single brother, freshman to senior. Throughout my time in SAE, I have taken a leadership position every semester, and I am currently serving my second term on exec. This was my way to give back to SAE, yet I still feel like I was given so much more than I put in. This is the place where I became a man. My maturity, leadership, professionalism, and personal development all grew tenfold. I am honored to be in SAE and so thankful to be recognized with this scholarship. Thank you!"

\$370,000 FOR THE LEVERE MEMORIAL TEMPLE

LEVERE MEMORIAL TEMPLE

As the Levere Memorial Temple approaches its 100th Anniversary, the SAE Foundation is already looking ahead to ensure the Temple will be fit for the next centennial. Recently, the Foundation engaged two architecture firms to conduct an assessment of the Levere Memorial Temple.

Revive Architecture assessed the building's exterior to recommend a development plan to preserve its historic character and integrity. This assessment examined the masonry walls, windows, and roofs to determine current conditions. The proposed building envelope rehabilitation will address structural concerns, deterioration through targeted repairs, refurbishment, and replacements of the façade, rooms, and windows (including our beautiful Tiffany stained glass in the chapel).

Weese Langley Klein Architect conducted an interior assessment, looking at the building's mechanical, electrical, and plumbing systems as well as the space utilization. The proposed interior renovations are designed to improve functionality of event facilities, the storage and display of historical artifacts, staff workspaces, and building accessibility.

As the stewards of the Levere Memorial Temple and the SAE artifacts within, it is our job to ensure we can continue to welcome Brothers and guests through our doors, and to share our rich history within its walls for decades and centuries to come.

DEAR BROTHERS,

Thank you for your support of the Sigma Alpha Epsilon Foundation. The 2024-2025 Fiscal Year was a success because of donors like you. Your time, talents, and treasure allow us to continue producing the needed programs and services to make SAE the greatest fraternity in the world!

Recently, we hosted our annual Tri-Board meeting where the Foundation, Fraternity, and Financial & Housing boards came together to celebrate our successes, collaborate around issues, and to ideate future innovations. As part of that meeting, we discussed a possible comprehensive campaign for the Fraternity. All three boards believe this campaign is essential and necessary to the future success of SAE. As you read earlier from our CEO, Tom Kilian, we are in the early stages of a feasibility study. I hope you will answer the call, take the time, and ultimately assist the Foundation in funding the next generation of SAE's.

I'd be remiss not to thank our Foundation Board of Trustees for their leadership during this critical time for the Foundation. Their commitment to SAE is inspiring. Please take a moment to recognize your Brothers below. The SAE Foundation is always looking for the next generation of board members. If you're interested, please reach out to Tom Kilian.

RECIPIENT SPOTLIGHTS

JUSTIN KELLEHER (FLORIDA SOUTHERN '24)

RECIPIENT OF THE FOUNDATION BOARD SPECIAL IMPROVEMENT FUND

Justin Kelleher was awarded the inaugural Foundation Board Special Improvement Fund award of \$10,000. This award was established in 2024 and recognizes

Brothers whose overall leadership skills will continue to enhance the advancement of the Fraternity after graduation. This scholarship is only

available to juniors, seniors, and graduate students.

Kelleher is a recent graduate of Florida Southern College and now a medical student at the Medical College of Georgia. A former Eminent Archon and National Ambassador, Kelleher led his Chapter to national recognition while spearheading philanthropic efforts that raised more than \$17,000. Today, at the Medical College of Georgia, he serves on the Executive Board for his class while conducting cancer research at the Georgia Cancer Center.

“

The Foundation Board Special Improvement Fund Award is an amazing opportunity that represents the network and support that Sigma Alpha Epsilon and the SAE Foundation provides each of the men under its wings,” Kelleher said of receiving the award. “As a medical student, there is constant uncertainty in both personal scholastic success and financial security, but this award has allowed me to find peace of mind in both regards. It shows that our Brotherhood holds faith in each of us, our aspirations, and our drive to be successful. I am beyond grateful for this opportunity and look forward to providing for my Brothers in a similar fashion through my time, talents, and treasure whenever possible.

MO KAHOK (MEMPHIS)

RECIPIENT OF THE SAE FOUNDATION SCHOLARSHIP AWARD FOR OVERALL EXCELLENCE

Established in 2021 and funded by the Charles Collins Award, this award recognizes Brothers who demonstrate overall excellence living the values of the Fraternity: Friendship, Scholarship, Leadership, and Service.

Kahok is a founding father and current Eminent Archon whose leadership has been vital in transforming SAE's presence at the University of Memphis. Kahok helped triple the Chapter's size in just one semester, secured a fraternity house, and personally contributed to its renovation—all while maintaining a 3.85 GPA on a Pre-Med track.

“

I'm incredibly grateful to receive such a prestigious scholarship,” Kahok said. “It's an honor to be recognized for the hard work my Brothers and I have put into establishing our Chapter as Founding Fathers. This experience, along with the support of our amazing advisors, has only strengthened my belief in the values and mission of SAE. I look forward to continuing to lead my Chapter to the best of my ability and to keep building True Gentlemen.

SCHOLARSHIP APPLICATIONS FOR THE 2026-2027 ACADEMIC YEAR ARE NOW OPEN

OVER \$114,000 WILL BE AWARDED; APPLY BY FEBRUARY 1, 2026!

REALM REPORTS

DELAWARE ALUMNUS LAUNCHES FAST-GROWING SPORTS APP

Nicholas Goerg (Delaware '12) is the Founder & CEO of **RateGame**, a fast-growing sports app that allows fans to rate and review individual games. RateGame was built on the principle of creating a safe, non-gambling space where sports fans can share their passion respectfully and authentically. Nick hopes to inspire brothers and alumni by showing how the ideals of The True Gentleman can guide entrepreneurial work that builds positive communities.

ORDER OF MINERVA RECIPIENT

Congratulations to Hugh Barr Miller IV (Alabama '85), who was presented with the Order of Minerva in recognition of his contributions and leadership to Mother Mu and the larger Fraternity.

CACTUS LEAGUE TRUE GENTLEMEN

On March 21, 2025, Brother Ron Pies (New Mexico '63) was inducted into the Cactus League Hall of Fame for his longtime contributions to Arizona's spring training legacy. The honor was presented by Jeff Meyer (Arizona State '83), current President of the organization and fellow True Gentleman.

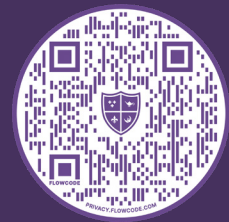

BROTHERHOOD KNOWS NO BOUNDS

East Carolina brother Carter Roberson (left) and his father Chris took their spirit underwater in the Cayman Islands, proudly displaying the SAE flag.

WORCESTER ALUM DONATES BLOOD STEM CELLS WITH NMDP

Mitch DeVillers (Worcester '23) joined the NMDP registry during his chapter's first swabbing event, never knowing he'd one day get the call to donate. When the opportunity came to donate his healthy blood stem cells earlier this year, Mitch didn't hesitate: "I was excited to help potentially save a life... I said yes right away. I'd recommend signing up for anyone who is willing and able to do so." Mitch views this experience the same way he views brotherhood: when someone is in need, it's up to those who are signed up, able, and willing to answer the call. This opportunity, he says, has only deepened his commitment to service, leadership, and brotherhood.

NATIONAL HAZING PREVENTION WEEK

University of South Carolina (South Carolina Delta) brothers displayed their commitment to hazing prevention during National Hazing Prevention Week. SAE members gathered outside their chapter facility to take pictures demonstrating "these hands don't haze" and "#Bethelader."

RECOGNIZING LEGACY IN COLLEGE BASKETBALL

Stewart Hsieh (Cal State Los Angeles '74) and Robert Merritt (North Carolina State '74) serve on the **John R. Wooden Award Steering Committee**, which annually recognizes the outstanding collegiate basketball players (men and women) in the USA and honors collegiate coaches for their legacy in college basketball. The John R. Wooden Award is presented every year at the Los Angeles Athletic Club. This year's winners are Cooper Flagg of Duke, Juju Watkins of the University of Southern California, and Mark Few of Gonzaga.

NORTHERN ILLINOIS RETURNS TO HISTORIC CHAPTER HOUSE

Northern Illinois University (Illinois Gamma) is returning to its historic home at 919 Greenbrier. This property has housed the chapter for the majority of its time at NIU, serving as a central place for brotherhood, tradition, and growth. The move marks an exciting new chapter for the fraternity as it reconnects with a space filled with memories and legacy. By returning to 919 Greenbrier, the brothers look forward to continuing their traditions while building a stronger future.

*Piano opt.
for Performance*

When Fred Phelps (Eastern New Mexico '64) raised his hand in 1963 to play piano at Leadership School, he could not have imagined how that single gesture would come to define his life. At the time, he was a college student at Eastern New Mexico University, more focused on his law school ambitions than on becoming the musical spirit of the fraternity. That single choice to accompany a chorus of brothers sparked a six-decade journey that shaped the sound, spirit, and cultural heartbeat of Sigma Alpha Epsilon.

Phelps has been called many things: professor, dean, mentor, performer. But within SAE, his most enduring title is simple: *the fraternity's music man*.

FROM SANTA FE TO SIGMA ALPHA EPSILON

Raised in New Mexico, Phelps grew up immersed in music. By high school, he was the accompanist for choirs, soloists, and bands, and by 15, he was playing weddings, funerals, and church services on the only pipe organ in town. At Eastern New Mexico University, he double-majored in political science and psychology, but music ran through every part of his life. "Everyone thought I was a music major," Fred recalled. "I was in the band, the orchestra, the chorus. Whenever there was a show, they'd put me on stage for something."

Fred
playing the
organ in
1961.

At the end of his freshman year in spring 1962, a notice went out that SAE alumni were interested in forming a chapter at Eastern. Fred attended the meeting, where SAE was introduced as the largest fraternity and, importantly for him, the singing fraternity. He was elected an officer that day and spent the summer establishing a chapter house and preparing for formal rush. That fall, the new Phi Alpha colony welcomed its first pledges. The following year, Fred and his brothers petitioned at the Atlanta Convention and by November were installed as a full chapter. He stood among 80 men initiated into SAE, cementing both the chapter's and his own place in fraternity history. His role in founding the chapter had marked him as a leader, but it was his music that soon made him unforgettable.

BECOMING SAE'S MUSIC MAN

At his first Leadership School in 1963, Phelps joined the chorus. "At the first rehearsal, the director asked if anyone could play piano," he recalled. "I was the only one who raised my hand." From that moment, Fred became the fraternity's accompanist, playing for chorus rehearsals, general sessions, rituals, and ceremonies.

The chorus quickly became a laboratory for music in the fraternity. Fred joked that while others came to study governance, he came to keep the fraternity in tune. At that first rehearsal, the chorus was led by Geoffrey Simon, whose brief involvement included writing the Initiation Hymn. Fred, meanwhile, became the constant presence at the piano, driving the fraternity's evolving sound. Songs were introduced, rearranged, and reimagined. Fred was central to that process, sitting at the piano while others stood around him, harmonizing and experimenting. Together, they created what became the SAE Medley, stitched three songs into one, and gave the Yale Yell a jazz rhythm that gave it new energy. Even contemporary hits like Blood, Sweat & Tears' Spinning Wheel were given SAE lyrics. "We were constantly reinventing the music of SAE," Fred said. "It was creative, it was fun, and it gave the fraternity its spirit."

"IT WAS CREATIVE, IT WAS FUN, AND IT GAVE THE FRATERNITY ITS SPIRIT."

By 1965, Phelps had introduced his signature act, playing piano and organ at the same time, billed outside SAE circles as The

Many Hands of Fred Phelps. Posters across New Mexico advertised his resort performances, but within SAE the nickname simply reinforced his central role in fraternity music.

LEADERSHIP SCHOOL'S GOLDEN ERA

The 1960s and 70s were what Phelps calls Leadership School's golden years. Then a two-week program, it created lifelong friendships among faculty and students alike. "When you commit two weeks of your life, that was your vacation," he recalled. "The friendships were deep, and the music became central."

"THE FRIENDSHIPS WERE DEEP, AND THE MUSIC BECAME CENTRAL."

The chorus, under Fred's direction, provided the soundtrack to Leadership School. Undergraduates who had never sung outside of church discovered the joy of raising their voices in harmony. Variety shows emerged, filled with comedy, parodies, and songs. Traditions like serenades, Sweetheart songs, and ritual hymns were kept alive and passed from one generation to the next.

For much of that era, Fred shared the stage with Carl Kimball, SAE's longtime song leader and a gifted musician who also performed with the San Francisco Gay Men's Chorus. For nearly two decades at Leadership School, Kimball's voice and presence were as central to the singing as Fred's accompaniment. Together, the two were considered a team, pushing the fraternity's music forward with new songs, fresh arrangements, and an infectious spirit. Following Kimball's early passing from AIDS, the fraternity honored him with the Kimball-Phelps Music Award, ensuring his name and influence would remain tied to SAE's musical tradition.

The extended format also made Leadership School a breeding ground for national leadership. Faculty who spent weeks immersed in SAE life often went on to serve on the Supreme Council, and the politics of the fraternity frequently took shape in those sessions. Fred, for his part, was not drawn into the maneuvering. Instead, he poured his energy into the music, building musical traditions that outlasted any debate. From his front-row seat, Fred was able to watch the fraternity's evolution and play a distinct role in the route it would take into the future. Just as SAE shaped its traditions, it also shaped Fred's

Fred was elected to the 2003-2005 Supreme Council as the Honorary Eminent Supreme Archon at the 147th Anniversary Convention in Cleveland, Ohio.

professional life, opening doors that would define his career in higher education.

A CAREER SHAPED BY BROTHERHOOD

While music defined Phelps' life in SAE, his professional path was also shaped by the fraternity. After graduating in less than three years, he was recruited by Eastern's new dean of students, himself an SAE, to stay on as his assistant while pursuing a master's degree. That role led to graduate studies at Northwestern, where he worked as assistant dean of men while completing his doctorate.

He then joined Hunter College in New York under Glen Nygreen, a past Eminent Supreme Archon and then dean of students. Fred had first met Nygreen years earlier at the installation of New Mexico Alpha, where Fred served as MC for the evening while Nygreen was the installing officer. The two struck up a friendship that led to Nygreen hiring Fred into student affairs at Hunter, launching a 50-year career with the City University of New York, including 30 years as a dean and 20 as a professor of psychology.

Reflecting on his journey, Fred summed it up simply: "Every job I had, I got through SAE."

KEEPER OF CULTURAL HERITAGE

If there is a single theme to Fred Phelps' legacy, it is his role as custodian of SAE's cultural heritage. He did not just preserve songs; he made them live again. He taught undergraduates who had never sung in harmony before. He rearranged medleys to

keep them fresh. He coaxed reluctant voices into spirited choruses. He reminded the fraternity that its spirit lived as much in its music as in its meetings.

"THE FRATERNITY IS NEVER A FINISHED PRODUCT."

"I've been at every convention but one," Fred said. "The fraternity is never a finished product."

Fred plays for the 169th Anniversary Convention in Atlanta, Georgia.

WELCOMING 73 NEW BROTHERS

Mississippi State's SAE chapter (Mississippi Theta) welcomes its largest new member class to date with 73 new members!

OKLAHOMA STATE ALUM PLACES SECOND AT NATIONAL JOURNALISM CHAMPIONSHIP

In Early June, Ashton Slaughter (Oklahoma State '25) represented Oklahoma State University at the Hearst National Journalism Championships in San Francisco, California. He placed second overall, earning \$7,500. While at Oklahoma State, Slaughter became the assistant sports editor for the school newspaper, *The O'Colly*, then sports editor, and finally editor-in-chief in the spring of 2025. This capped off an amazing college career for Slaughter, who will be missed around campus.

ILLINOIS BROTHERS ESTABLISH ENGINEERING SCHOLARSHIP

Three Illinois (Illinois Beta) brothers, Greg Levine '95, Karl Kochendorfer '94, and Jeff Meunier '94, have established the **SAE Fraternity Engineering Scholarship**, an endowed fund that will support undergraduate SAE members in Engineering and CS+ programs beginning Fall 2025.

MERIT KEY & CELEBRATION OF LIFE FOR DERAN C. ABERNATHY

On Sunday, July 27, family, Brothers, and friends gathered to celebrate the life of Deran C. Abernathy (Texas-Dallas '04). As a founding member of the Texas Chi chapter, Deran was involved at multiple levels of the Fraternity, including serving as a staff member. Eminent Supreme Deputy Archon Jim Skaggs presented the Merit Key Award to his wife, Sarah.

DONOR HONOR ROLL

THIS LIST REFLECTS DONATIONS RECEIVED BETWEEN JANUARY 1 AND JUNE 30, 2025, AND ALL LIVING FOUNDERS' CIRCLE AND HERITAGE SOCIETY DONORS.

The Sigma Alpha Epsilon Foundation recognizes individuals who show their support by making a financial gift to the Fraternity. With support from our generous donors, SAE provides educational and leadership opportunities to undergraduate members and academic scholarships to students across the Realm. This list is organized alphabetically by collegiate institution.

For more information about the SAE Foundation and a complete list of donors, visit: sae.net/foundation/

FOUNDERS' CIRCLE

Donors with these icons are members of the Founders' Circle, a cumulative giving society to acknowledge donors who have made significant contributions throughout their lives. The Foundation is honored to recognize our time-honored donors through the following Founders' Circle levels:

- Silver: \$5,000-\$9,999
- Gold: \$10,000-\$24,999
- Pearl: \$25,000-\$49,999
- Amethyst: \$50,000-\$74,999
- Onyx: \$75,000-\$99,999
- Ruby: \$100,000-\$149,999
- Aquamarine: \$150,000-\$249,999
- Emerald: \$250,000-\$499,999
- Sapphire: \$500,000-\$999,999
- Diamond: \$1,000,000+

ARCHON CIRCLE

Donors with these icons are members of the Archon Circle, which recognizes individuals who give \$500 or more to the Annual Loyalty Fund each fiscal year. The SAE Foundation is honored to recognize these donors through the following Archon Circle levels:

- ♣ Chronicer: \$500-\$999
- ♠ Herald: \$1,000-\$2,499
- ♣ Warden: \$2,500-\$4,999
- ♠ Archon: \$5,000-\$9,999
- ♣ Minerva: \$10,000-\$24,999
- ♠ Phi Alpha: \$25,000+

PHOENIX CIRCLE

Donors with this icon are members of the Phoenix Circle, a giving society for recurring donors.

PHI ALPHA CLUB

Donors with this icon are members of the Phi Alpha Club, an exclusive giving society for undergraduate members.

HERITAGE SOCIETY

Donors with this icon are members of the Heritage Society, a giving society to acknowledge donors who have included the SAE Foundation in their estate plans.

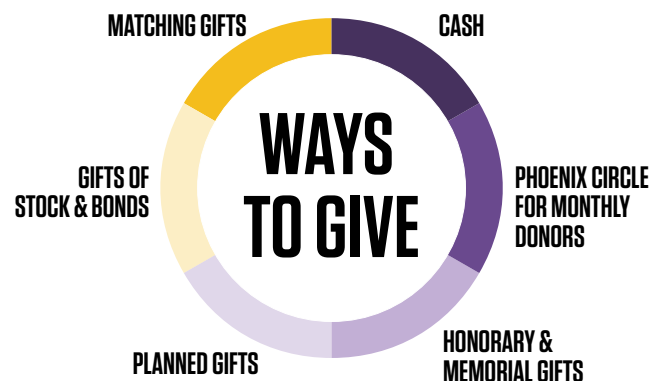

DECEASED DONOR

Donors with this icon contributed to the SAE Foundation between January 1 and June 30, 2025, and have since joined Chapter Eternal. We are forever grateful for their support and dedication to Sigma Alpha Epsilon.

FIRST-TIME DONOR

Donors with this icon made their first charitable contribution to the SAE Foundation between January 1 and June 30, 2025. We welcome them to the distinguished community of SAE Foundation Donors.

Each giving society comes with special recognition and perks! For more information, please visit sae.net/foundation/.

NEW GREEK HOUSING MANAGEMENT WEBSITE

SAE Financial and Housing is proud to announce the rollout of our new website. The new site helps highlight our updated branding that has largely been dictated by our successful growth over the past 5 years. During the recent period of growth, SAE Financial and Housing has focused on the features of our Greek Housing Management services.

Greek Housing Management focuses on partnering with chapters, House Corporations, Provinces, and Alumni Associations. The partnership targets implementing our custom-designed, cloud-based software for efficient and effective financial, compliance, leasing, and property management solutions. Over the same 5 year period (since 2020), the range of chapters serviced by Greek Housing Management has diversified to include: unhoused chapter (Billing, Collections and Tax Compliance), chapters in financial distress (debt recovery, accounts payable management, building reserves through proper budgeting), House Corporations in major conferences (growth of partners in the Big10 & SEC), and House Corporations outside SAE (currently serving 8 Delta Chi Properties). In fact, at this point, nearly every SAE chapter, Province, and House Corporation can find value (service and/or advice) from Greek Housing Management's current service offerings.

Check out the new site at www.greekhm.com to learn more.

NEW MEXICO ALUMNI REACQUIRE CHAPTER HOUSE

BY JP ANDRICK (FROSTBURG STATE '97)

As the first step toward a monumental fall semester, the newly formed New Mexico Tau Alumni House Corporation purchased back their original chapter house from SAE Financial & Housing (SAE F&H). In 2017, the previous house corporation approached SAE F&H for assistance due to vacancy and the struggles to financially support the property during a time of extended chapter closure. SAE F&H was able to take ownership of the property and invest capital in the form of extensive renovations and carry the operational costs of the vacant property. Over the past 8 years, SAE F&H partnered with the Fraternity Service Center to assist in the return of the collegiate chapter through the emerging chapter expansion process. As early as 2023, SAE F&H and key New Mexico alumni began discussions on how a newly organized and funded house corporation might be able to assume ownership and operation of the historic property. Through the growth of alumni support and work with a preferred banking partner, SAE F&H and the newly formed alumni house corporation were able to "close the deal" in early August 2025. As the icing on the cake, the collegiate chapter had one of their most successful fall recruitments, resulting in 15 newly initiated brothers!

SAE Financial & Housing wishes the New Mexico Tau Chapter and House Corporation continued growth and success. We remain an email, text, or phone call away for other House Corporations and Chapters across the realm who might benefit from our operational knowledge and efficiencies.

THE HIDDEN ROI OF CUSTOMER SERVICE

WHY YOUR NEXT SUPPORT HIRE COULD BE YOUR MOST PROFITABLE INVESTMENT

BY DENNIS MCCALL (INDIANA '84)

Most small-medium-sized businesses (SMBs) view customer service as a cost center rather than a revenue driver. But here's what they're missing.

While obsessing over sales hires (rightfully so), you're probably overlooking one of the highest-ROI investments in your entire business: **strategic customer service hiring.**

Here's what most SMB leaders don't realize: A single great customer service hire can generate 3.5x in additional revenue over three years while simultaneously protecting hundreds of thousands in existing revenue from walking out the door

A single great customer service hire can significantly boost revenue over three years while protecting existing revenue from churn, according to Forrester's Brand Experience Index.

Meanwhile, a bad customer service hire can cost you \$240,000 when all the ripple effects are calculated.

Let's walk through some numbers that might surprise you about support hiring.

THE BRUTAL REALITY OF BAD CUSTOMER SERVICE HIRING

So what's the real cost of a bad customer service hire:

- **51% of consumers will drop your brand after a single bad service experience**
- **33% will consider switching after just one negative interaction**
- **High-performing customer service teams have 30-45% annual turnover**
- **The average cost to replace a customer service rep: \$10,000-\$20,000**

For SMBs, these aren't just statistics—they're business killers.

When your 50-person company loses a \$50,000 annual client because your support rep was unhelpful, dismissive, or incompetent, that's not just lost revenue. That's lost referrals, damaged reputation, and potentially months of marketing spend needed to replace that client.

Every customer interaction is a retention decision. Every support hire is a revenue decision.

THE VACANCY HEMORRHAGE: WHAT EMPTY SUPPORT SEATS ACTUALLY COST

Let's start with what most SMBs completely underestimate: the cost of leaving customer service positions empty.

Traditional thinking: "We'll just have the team cover extra volume until we find someone."

Reality: Every day your support role sits vacant costs approximately \$100-300 in lost revenue through delayed responses, frustrated customers, and canceled orders.

The real costs break down as:

- **Average time-to-fill for customer service roles:** 42 days
- **Daily vacancy cost:** \$4,129 over a 42-day period, or roughly \$98 per day
- **Total vacancy hemorrhage:** \$7,000-\$10,000 per month, lost revenue opportunities

But here's where strategic recruiting changes everything:

DIY Approach:

- Time to fill: 42 days
- Vacancy cost: \$7,000-\$10,000
- Internal hiring costs: \$4,700
- **Total hiring impact:** \$12,050

Strategic Recruiting Partnership:

- Time to fill: 21 days (50% faster)
- Vacancy cost: \$3,500-\$5,000 (50% of DIY approach)
- Recruiting fee: \$8,400 (20% of \$42K salary)
- **Total hiring impact:** \$12,075

Costs aside—they're almost the same. The key difference comes down to:

With strategic recruiting, you're not just filling the seat faster (saving \$3,675 in vacancy costs). **You're dramatically increasing your odds of hiring someone who will actually drive revenue instead of destroying it.**

THE RAMP REALITY: HOW FAST PRODUCTIVITY IMPACTS YOUR BOTTOM LINE

Even after someone starts, there's a critical ramp period where you're paying full salary for partial productivity.

Industry data shows:

- New customer service reps take approximately **60 days to reach full effectiveness**
- During ramp, they operate at roughly **70% productivity**
- This productivity gap costs approximately **\$3,600 in underperformance**

But top performers ramp 30-50% faster:

- **Average hire:** 60 days to full productivity
- **Top performer:** 50% increase in productivity if properly hired and onboarded

Why this matters beyond the math:

Customers don't care that your new rep is "still learning." Every frustrated interaction during the ramp period is a retention risk that could cost thousands in lost customer lifetime value.

THE PERFORMANCE MULTIPLIER: WHAT GREAT CUSTOMER SERVICE ACTUALLY DELIVERS

The real payoff comes from performance differences. Unlike other roles where performance differences are subtle, customer service performance directly impacts your most valuable asset: **customer retention.**

THE REVENUE PROTECTION FACTOR

A 5% improvement in customer retention can increase profits by 25-95%. Here's how a top-performing customer service rep achieves this:

Average performer retention rate: 85% of customers they interact with
Top performer retention rate: 90% of customers they interact with

For a rep handling 1,000 customer interactions annually:

- **Performance difference:** 50 additional customers retained
- **Average customer annual value:** \$500
- **Additional revenue protected:** \$25,000 per year

THE REVENUE GENERATION FACTOR

Great customer service reps don't just solve problems—they create opportunities:

Upsell and Cross-sell Impact: Top performers identify expansion opportunities during support calls, with McKinsey research showing 40% higher sales conversion rates from service interactions.

Referral Generation: 97% of customers who experience "value enhancement" through great service share positive word-of-mouth, generating **zero-cost customer acquisition.**

Repeat Purchase Acceleration: Superior support turns one-time buyers into loyal customers who **spend 31% more annually** than new customers.

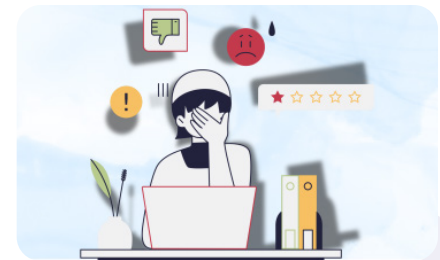

THE EFFICIENCY MULTIPLIER

Top customer service performers also drive operational efficiency:

- **Higher first-contact resolution rates** (reducing repeat calls and costs)
- **Faster average handle times** without sacrificing quality
- **Higher customer satisfaction scores** correlate with increased revenue

Conservative estimate: A top performer can generate **10-20% in additional annual revenue** through the combination of retention improvements, upsell opportunities, and efficiency gains.

THE DISASTER SCENARIO: WHAT BAD CUSTOMER SERVICE HIRING ACTUALLY COSTS

On the flip side, hiring the wrong person doesn't just cost their salary—it actively destroys value:

Direct Costs of Bad Hires

- **Replacement costs:** \$10,000 to \$20,000 when they quit or get fired
- **Training waste:** All onboarding investment lost
- **Overtime costs:** Other team members covering their mistakes

Hidden Revenue Destruction

- **Customer churn acceleration:** One bad rep can alienate dozens of customers before you realize there's a problem
- **Reputation damage:** Negative reviews and word-of-mouth that takes months to recover from
- **Team morale impact:** Good employees get frustrated covering for poor performers

Industry estimates suggest a single bad customer service hire can cost \$240,000+ when all ripple effects are included.

THE ONE-YEAR VS. THREE-YEAR ROI ANALYSIS

Imagine an SMB faced with two hiring options—a typical candidate versus a top performer. Here's how the numbers might play out over three years.

BUSINESS INSIGHTS

YEAR 1 COMPARISON

Average Hire (DIY Approach):

- **Total costs:** \$54,000 (salary + hiring + vacancy + ramp losses)
- **Revenue impact:** \$0 (maintains status quo)
- **Net ROI:** Negative (investment with no return)

Top Performer (Strategic Recruiting):

- **Total costs:** \$52,500 (salary + fee + reduced vacancy/ramp)
- **Revenue impact:** +\$15,000 (retention + upsell + efficiency)
- **Net ROI:** 28.5% in year one**

THREE-YEAR COMPOUNDING EFFECT

Average Hire Path:

- **Year 1:** Break-even performance
- **Year 2:** 50% chance they quit (requiring another hiring cycle)
- **Year 3:** Either dealing with replacement costs or continued mediocrity
- **Total three-year cost:** \$110,000+
- **Revenue trend:** Flat or declining due to churn during transitions

Top Performer Path:

- **Year 1:** \$15,000 additional revenue
- **Year 2:** \$15,000+ (customers saved in Year 1 continue spending)
- **Year 3:** \$15,000+ (compounding effect of loyal customer base)
- **Total three-year investment:** \$128,000
- **Total additional revenue generated:** \$45,000+
- **Three-year ROI:** 35-40%**

The compounding effect is the key: Each year a top performer stays, they're not just generating current value—they're building a more loyal customer base that continues paying dividends.

WHY SMBS GET CUSTOMER SERVICE HIRING WRONG

Most small businesses make these critical mistakes:

Mistake #1: Treating Support as Unskilled Labor

Wrong thinking: "Anyone can answer phones and be nice to customers."

Reality: Great customer service requires emotional intelligence, problem-solving skills, and the ability to turn frustrated customers into loyal advocates.

Mistake #2: Focusing Only on Cost, Not Value

Wrong thinking: "Let's hire the cheapest person who meets basic qualifications."

Reality: The salary difference between an average and exceptional customer service rep is maybe \$5,000-8,000 annually, but the revenue impact difference is \$15,000+ per year.

Mistake #3: Accepting High Turnover as Normal

Wrong thinking: "Customer service just has high turnover—that's how it is."

Reality: High turnover is often a symptom of poor hiring. When you hire the right people and support them properly, retention improves dramatically.

Mistake #4: DIY Hiring for Customer-Facing Roles

Wrong thinking: "Customer service hiring is straightforward—we don't need help."

Reality: Customer service hiring requires understanding personality traits, communication styles, and cultural fit factors that are difficult to assess without proper tools and expertise.

THE STRATEGIC CUSTOMER SERVICE HIRING FRAMEWORK

When evaluating customer service candidates, focus on these high-impact factors:

Emotional Intelligence and Resilience

- **Can they stay calm under pressure?**
- **Do they naturally empathize with frustrated customers?**

- **Can they recover from difficult interactions without carrying negativity forward?**

Problem-Solving Orientation

- **Do they dig deeper to understand root causes?**
- **Can they think creatively when standard solutions don't work?**
- **Do they take ownership of resolution rather than just following scripts?**

Communication Excellence

- **Can they explain complex concepts in simple terms?**
- **Do they listen actively and ask clarifying questions?**
- **Can they adjust their communication style to different personality types?**

Cultural and Company Fit

- **Do they genuinely care about helping people?**
- **Are they comfortable with your company's communication style and values?**
- **Can they represent your brand authentically?**

THE CUSTOMER SERVICE ASSESSMENT ADVANTAGE

Just like with sales hiring, assessments dramatically improve customer service hiring success:

Without assessments: 20% accuracy in identifying top performers

With validated assessments: 72% accuracy in predicting success

The best customer service assessments evaluate:

- **Emotional stability under stress**
- **Natural helping orientation**
- **Communication style preferences**
- **Patience and frustration tolerance**
- **Learning agility and coachability**

Strategic recruiting partners use these assessment results to formulate targeted interview questions that reveal true behavioral patterns, not just rehearsed responses.

YOUR CUSTOMER SERVICE ROI ACTION PLAN

1. Calculate Your Current Customer Service Costs:

Add up your last year's customer service turnover costs, training expenses, and estimate revenue lost from service-related churn. The number will shock you.

2. Identify Your Highest-Impact Hiring Needs:

Which customer service roles directly impact your highest-value customers? Start there.

3. Implement Assessment-Driven Hiring:

Work with recruiting partners who use validated behavioral assessments specifically designed for customer service roles.

4. Track Revenue Impact, Not Just Cost:

Start measuring customer retention rates, upsell success, and customer satisfaction scores by individual rep. You'll quickly see who's driving revenue versus who's just answering tickets.

THE COMPETITIVE CUSTOMER SERVICE ADVANTAGE

While your competitors are treating customer service as a cost center and hiring based on "who seems nice in the interview," you can be using scientific assessments and strategic recruiting to build a support team that actively drives revenue growth.

The companies winning in 2025

understand this shift: Customer service isn't about minimizing costs—it's about maximizing customer lifetime value through exceptional experiences delivered by strategically hired talent.

When done right, your customer service team becomes a profit center that:

- **Protects existing revenue** through superior retention
- **Generates new revenue** through upsells and referrals
- **Reduces acquisition costs** through positive word-of-mouth
- **Builds competitive moats** through customer loyalty

The ROI math is undeniable: Picture this, a \$8,400 recruiting investment that helps you hire a top customer service performer will generate \$45,000+ in additional revenue over three years while protecting hundreds of thousands in existing customer relationships.

While competitors treat support as an expense, winners treat it as an investment.

TRANSFORM YOUR CUSTOMER SERVICE ROI

1. Calculate your true customer service hiring costs, including turnover, training, and lost customer value (preparation for strategic discussion)

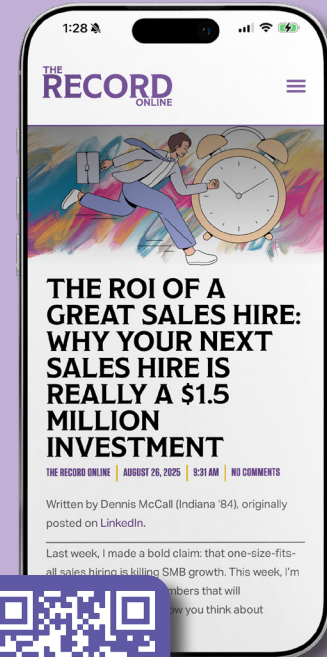

2. Schedule a customer service hiring strategy consultation to see how assessment-driven recruiting can turn your support team into a revenue engine

3. Ask potential recruiting partners:

"How do you assess emotional intelligence and customer service aptitude, and how do you use those results to predict success?"

DENNIS HAS PUBLISHED NUMEROUS ARTICLES SHARING HIS EXPERTISE READ MORE FROM DENNIS ON THE RECORD ONLINE.

therecordonline.net

Dennis McCall is VP of Operations at Networks Connect, where he specializes in helping SMBs build customer service teams that drive revenue growth. Dennis has developed assessment-driven recruiting approaches that have helped hundreds of growing

companies transform their support functions from cost centers into profit drivers.

GEORGE ROBERT "BOB" HAMRDLA (STANFORD '60)

George Robert "Bob" Hamrdla will be remembered as an exemplary educator, steadfast philanthropist, and loyal friend. Born in Kansas City, Kansas, Bob lived there and in Atlanta before moving to the San Francisco Bay Area in fifth grade. He attended San Mateo High School before earning his bachelor's degree (Mathematics) in 1959 and master's degree (History) in 1964 from Stanford University.

Bob served under two Stanford University presidents as Assistant to the President and Secretary to the Board of Trustees. As an instructor in the Department of History with expertise in Central Europe and the former German Democratic Republic, he taught at Stanford for over 30 years. Fluent in four languages, Bob directed Stanford's overseas programs in Germany (Beutelsbach and Berlin) and Poland (Krakow). He also conducted numerous Stanford Travel/Study tours to Central and Eastern Europe as a faculty leader.

In a recent speech, Bob recounted that "Legacy means something positive one leaves behind for the enrichment of others' lives." For over 50 years, Bob inspired thousands of Stanford students, alumni, and Sigma Alpha Epsilon brothers. His surviving family members, colleagues, students, and friends will attest that Bob always provided a generous and caring spirit—someone who thought about the rights and feelings of others rather than his own, and whose deeds always followed his words.

DAVID LEROY "DAVE" ARENDT (DRAKE '78)

David Leory "Dave" was born on May 17, 1956, in Oskaloosa, Iowa. He graduated from Montezuma High School in 1974 and went on to join the Iowa Delta chapter of Sigma Alpha Epsilon at Drake University, graduating in 1978. During his professional career, Dave served on the staff of the SAE Foundation, helping to raise funds and ensure our fraternity would continue to shape the lives of young men. Dave lived in Green Bay, WI, and Muscatine before moving back to Montezuma, where he managed Sig Manufacturing. Soon after, he joined his father at People's Savings Bank in Montezuma in 2001, where he worked until retiring in September of 2022.

Dave enjoyed making horseradish, tailgating at Iowa Football games in his motor home, golfing, taking family trips to visit his brother, Mike, in Turkey, having 4th of July parties at his home at Lake Ponderosa, and attending Fire Convention with his fellow firefighters. Dave loved playing Santa Claus for his great nieces and nephews, along with his great-great nieces and nephews. Above all, Dave loved his family. Dave was a member of the Montezuma Country Club, the Montezuma Fire Department from 2002 to 2014, the Shriners, and the Masonic Lodge, where he took care of the Masonic IOOF Cemetery in Montezuma for the last several years. A True Gentleman through and through, Dave Arendt held true to the high ideals set forth in our creed.

TOLEDO BROTHER DONATES BLOOD STEM CELLS WITH NMDP

Jacob Egnor (Toledo) joined the NMDP Registry at the DeVotie Ritual Institute in November 2021 — the first event attended by NMDP following the launch of our partnership earlier that year. Nearly four years later, Jacob will become the first donor among the roughly 30 brothers who swabbed at that event. “The moment I got the call, I dropped everything. I was beyond excited and humbled by the chance to give someone hope. Knowing I might be the one person who could help kept me motivated through every step of the process. It wasn’t even a question, I just knew I had to do it.”

CINCINNATI BROTHERS TAKE FLIGHT FOR MENTAL HEALTH

Cincinnati SAEs took flight at this year’s Red Bull Flugtag, sending their craft ‘Seb’s Wingman’ 39 feet through the air. Partnering with the Sebastian Schemmel Legacy Fund, Ohio Epsilon raised funds and awareness for mental health in honor of their late brother, Sebastian Schemmel (Cincinnati ’24).

PENN STATE-UNIVERSITY PARK CELEBRATES 100 YEARS OF THEIR CHAPTER HOUSE

Over the first weekend of October, the Penn State-University Park (Pennsylvania Alpha-Zeta) chapter celebrated 100 years of “The Ranch,” their beloved chapter home and a lasting symbol of brotherhood. Alumni from every generation joined current members to honor the legacy that continues to define their chapter. The brothers extend their gratitude to everyone who helped make this milestone celebration unforgettable.

IOWA ANCHOR SPLASH

Congratulations to the Iowa (Iowa Beta) brothers, who won Delta Gamma’s annual Anchor Splash event in their first year participating!
